Octobre 1996

#### Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

#### How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Analysis and Dissemination Section, Labour Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone (613) 951-4090) or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405

#### Standards of service to the public

To maintain quality service to the public, Statistics Canada follows established standards covering statistical products and services, delivery of statistical information, cost-recovered services and services to respondents. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

#### Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

#### Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Section de l'analyse et de la diffusion, Division du travail, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-4090) ou à l'un des centres de consultation régionaux de Statistique Canada :

#### Normes de service au public

Afin de maintenir la qualité du service au public, Statistique Canada observe des normes établies en matière de produits et de services statistiques, de diffusion d'information statistique, de services à recouvrement des coûts et de services aux répondants. Pour obtenir une copie de ces normes de service, veuillez communiquer avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

## Annual Estimates of Employment, Earnings and Hours (1983 to 1995) are now available.

	Employment,	payrolls an	d hours o	data has	undergone a	a significant	revision.
--	-------------	-------------	-----------	----------	-------------	---------------	-----------

- Prior to the revision, administrative data was used only on employment and payrolls for small businesses representing approximately 30% of the total employment. With the redesign, administrative data has expanded, accounting for about 65% of the total employment. The remaining 35% comes from survey data.
- With this new information source, employment levels have improved. This improved coverage resulted in a revision to the previously released data.
- You can now order the annual estimates product with consistent time series back to 1983.

### This product contains the historically revised data.

## Estimations annuelles de l'emploi, des gains et de la durée du travail (1983 à 1995) sont maintenant disponibles.

10	es données d	e l'emploi.	de la	rémunération	et des	heures ont	subi une	révision importante.
----	--------------	-------------	-------	--------------	--------	------------	----------	----------------------

- Auparavant, l'enquête contenait des données administratives seulement pour l'emploi et la rémunération des petites entreprises, soit environ 30% de l'emploi total. Avec ce remaniement, nous avons élargi l'utilisation des données administratives, représentant environ 65% de l'emploi total. Le 35% restant provient de données d'enquête.
- Grâce à cette nouvelle source, les niveaux d'emploi sont améliorés. Cette couverture améliorée de l'emploi nous a obligé à réviser les données déjà publiées.
- Commandez dès maintenant afin d'obtenir les estimations annuelles contenant les séries historiques cohérentes à partir de 1983.

### Ce produit contient les données historiques révisées.

#### Note of appreciation

Canada owes the success of its statistical system to a long-standing co-operation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

#### Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles. Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

#### Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

#### **Symbols**

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

#### Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- p nombres provisoires.
- nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

#### Note on CANSIM

The data published in Employment, Earnings and Hours (Catalogue No. 72-002-XPB) are also available in machine readable form through CANSIM (Canadian Socio-Economic Information Management System). Users interested in accessing data via CANSIM should contact one of Statistics Canada's regional centres at the numbers listed on the inside front cover of this publication, or contact the Marketing division, Statistics Canada, R.H. Coats Building, Ottawa, Ontario, k1A 0T6 (613) 951-8200

#### Note concernant CANSIM

Les données qui sont publiées dans l'Emploi, gains et durée du travail (n° 72-002-XPB au catalogue) peuvent être obtenues sous forme lisible par machine de CANSIM (Système Canadien d'information socio-économique). Les utilisateurs voulant obtenir des chiffres par l'intermédiaire de CANSIM peuvent contacter un des centres de consultation de Statistique Canada dont les numéros de téléphone figurent à l'endos du couvert de cette publication ou en communiquant directement avec la division du marketing, Statistique Canada, Immeuble R.H. Coats, Ottawa, Ontario, K1A 0T6 (613)951-8200.

#### Design your own table

Design your own table to order Employment, Payrolls and Hours data in the detail you need it. All data collected by the survey can be custom tabulated to meet your particular data needs. A consultant will help you custom design your tabulation. Our office is open from 8:00 A.M. to 4:30 P.M..

Telephone: (613) 951-4090 Facsimile: (613) 951-4087 Internet: labr@statcan.ca

#### Commandez votre propre tableau

Commandez votre propre tableau des données de l'emploi, de la rémunération et des heures de travail, selon le détail désiré. Toutes les données recueillies par l'enquête peuvent être totalisées selon vos besoins. Un consultant est disponible pour vous aider à créer votre propre tableau. Notre bureau est ouvert entre 8:00 et 16:30 heures.

Téléphone: (613) 951-4090 Télecopieur: (613) 951-4087 Internet: labr@statcan.ca

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANS1 Z39.48 - 1984.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48-1984.

### **Survey Overview**

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and defence services. Conceptually, the SEPH reference period is the last seven days of the month, but the questionnaire asks respondents to report for the last pay period in the month.

#### Methodology

The statistics contained in this publication are based on:

- a census of establishments within enterprises with a complex structure and having approximately 300 or more employees,
- a census of administrative records having approximately 100 employees or more,
- a sample of administrative records having approximately 99 employees or less,
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

The total payroll employment estimates are derived by adding up the employment data obtained by integrating two different sources, the Establishment survey and the Administrative records. However, processes are independent for the sample selection, data collection and estimation. The Establishment Survey accounts for about 35% of the total payroll employment, while the remaining portion is from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficient needed to estimate data not reported on the administrative records. Combining different sources, BPS, Administrative Survey, and Establishment Survey results in the full range of SEPH variables.

#### TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification (SIC). A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501-XPB. In the tables of this

### Aperçu de l'enquête

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services de la défense. En théorie, la période de référence de l'EERH correspond aux sept derniers jours du mois, mais les répondants doivent remplir le questionnaire en tenant compte de la dernière période de paye du mois.

#### Méthodologie

Les statistiques comprises dans la présente publication sont fondées sur:

- un recensement d'établissements à l'intérieur d'entreprises ayant une structure complexe et comprenant approximativement plus de 300 salariés,
- un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

Le nombre total de salariés inscrits sur la liste de paye est obtenu en additionnant l'emploi provenant de deux différents volets de l'enquête soit celui des enquêtes sur les établissements et celui des dossiers administratifs. Toutefois, les procédés sont distincts pour le choix de l'échantillon, la collecte des données et les estimations. L'enquête sur les établissements représente environ 35% du total des salariés inscrits sur les listes de paye, le reste provenant des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. différents volets soit l'ERE, les dossiers administratifs ainsi que l'enquête sur les établissements sont combinés en vue de produire toutes les variables propres à l'EERH.

#### **TERMES ET DÉFINITIONS**

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 (CTI) est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501-XPB. Dans les tableaux de cette publication,

publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except for defence services and other government services).
- e) Durable goods (39U) manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339) and non-metallic mineral products (351-359).
- f) Non-durable goods (37U) manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379) and other manufacturing industries (391-399).
- g) Commercial services (95U) consist of the following industries; business services (771-779), accommodation services (911-914), food and beverage services (921-922), amusement and recreational services (961-969), personal services (971-979), membership organization (982-986) and other service industries (991-999).
- h) Non-commercial services (94U) consist of the following industries; educational and related services (851-859) and health and social services (861-869).

une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- a) Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- c) Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services de la défense et autres services gouvernementaux).
- e) Biens durables (39U) des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339) et produits minéraux non métalliques (351-359).
- f) Biens non durables (37U) des industries manufacturières englobe les industries suivantes; aliments (101-109), boisson (111-114), tabac (121-122), produits en caoutchouc (151-159), produits en matière plastique (161-169), cuir (171), première transformation du textile (181-183), produits textiles (191-199), habillement (243-249), papier et produits connexes (271-279), imprimerie, édition et industries connexes (281-284), produits raffinés du pétrole et du charbon (361-369), produits chimiques (371-379) et autres industries manufacturières (391-399).
- g) Services commerciaux (95U) englobe les industries suivantes; services aux entreprises (771-779), hébergement (911-914), restauration (921-922), services de divertissements et loisirs (961-969), services personnels (971-979), associations commerciales (982-986) et autres industries de services (991-999).
- Services non commerciaux (94U) englobe les industries suivantes; services d'enseignement et services annexes (851-859) et services de soins de santé et services sociaux (861-869).

- Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- j) Other amusement and recreational services (960) consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).
- k) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

#### **Variables**

#### **Employee**

The employment is derived by adding up data derived from two sources; the establishment survey and from the administrative records. Since the data for the different employee categories are not reported on the administrative records the BPS survey is conducted to estimate ratios needed to calculated those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The definition excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

- Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bancaire (702).
- j) Services de divertissements et de loisirs (960) englobe les industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).
- k) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

#### **Variables**

#### Salarié

L'emploi est obtenu en additionnant les données provenants de sources différentes; l'enquête sur les établissements et des dossiers administratifs. Toutefois les estimations pour les différents types d'emplois ne sont pas rapporter sur les dossiers administratifs, l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servants à estimer ces variables.

L'enquête définie un employé comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le terme "salarié" désigne les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en corporation, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

## The employees are classified into the following categories:

 a) Employees paid by the hour: any employee whose basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff:* All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counsellor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

b) \*Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staff:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

c) \*Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *supply or substitute teachers*: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

#### Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, enemployment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to unemployment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period.

## Les salariés sont classés dans les catégories suivantes:

 a) Salariés rémunérés à l'heure: tout salarié dont la rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le *personnel non enseignant*: tous les salariés autres que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économe, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge, pourvoyeur, chauffeur d'autobus, etc.)

b) \*Employés: tout salarié dont la rémunération de base constitue une somme fixe versée pour au moins une semaine. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le *personnel enseignant*: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplaçants sont exclus.

c) \*Autres salariés: tout salarié dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de milage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le personnel *suppléants ou remplaçants*: enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

#### Rémunération hebdomadaire brute:

La rémunération brute est défénie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ca représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-chômage etc.., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements speciaux. Les concepts sur la rémunération. ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-chômage, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence.

The payroll is derived by adding up data derived from two sources, the Establishment survey and the Administrative records.

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours for employees paid by the hour by the number of employees paid by the hour. Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence. Although the standard work week for salaried employees is not included in this document, this data remains available.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls for employees paid by the hour by the total number of weekly hours for employees paid by the hour. Average hourly earnings are calculated for the hourly-rated employees and for the \*salaried employees.

\*Data for other employees and salaried employees are available in the monthly publication (cat. 72-002-XPB) or directly from the Labour Division ((613) 951-4090).

La rémunération brute est obtenue en additionnant les données provenant de sources différentes soit l'enquête sur les établissements et les dossiers administratifs.

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées des salariés rémunérés à l'heure par le nombre de salariés rémunérés à l'heure. Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées. Même si le nombre d'heures dans une semaine normale de travail ne figure pas dans ce document, ces données demeurent disponibles.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute des salariés rémunérés à l'heure par le nombre d'heures travaillées de ces même salariés. La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des \*employés.

\*Les données pour les autres salariés et pour les employés sont disponibles soit dans la publication mensuelle (72-002-XPB) ou auprès de la division du travail au ((613) 951-4090).

You can obtain a more detailed description of the concepts and methods of the SEPH program in the January issue of this publication (Annex 1) or contact Labour Division at (613) 951-4090.

Une description plus détaillée des concepts et des méthodes du programme de l'EERH figure dans l'édition de janvier de cette même publication (annexe 1) ou vous pouvez nous rejoindre à la division du travail au (613) 951-4090.

### Discover What Help-Wanted Ads Can Tell You About Canada's Economy / Découvrez ce que les offres d'emploi révèlent sur l'économie canadienne

Help-wanted ads in newspapers are a *rich source of information about economic activity.* When the economy is growing, employers place help-wanted ads to attract new workers. Similarly, during an economic downturn, there is a decrease in the demand for labour so they advertise less. Since help-wanted ads reflect future hirings, changes in the level of ads provide early signals of labour market conditions, and of general economic activity.

That's why Statistics Canada conducts the Help-Wanted Index survey (HWI). Each month, we count the help-wanted ads published in 22 metropolitan area newspapers across the country. Results are released within ten days after each month's data has been collected. This makes the index a timely source of valuable labour market information.

The Help-Wanted Index measures changes in the demand for labour by region and by metropolitan areas like Vancouver, Winnipeg, Toronto, Montreal and Halifax, among others. In fact, it is the only indicator of labour demand compiled by Statistics Canada on a regular basis!

Les offres d'emploi publiées dans les journaux sont une source abondante d'information sur l'économie. En période de croissance économique, les employeurs font paraître les offres d'emploi afin d'attirer de nouveaux travailleurs. De la même façon, durant une période de ralentissement économique, la baisse de la demande de main-d'oeuvre entraîne une réduction du nombre d'annonces. Étant donné que les annonces d'offres d'emploi reflètent les intentions d'embauche future, leurs fluctuations peuvent fournir une indication précoce des conditions du marché du travail et de l'économie en général.

Voilà pourquoi Statistique Canada mène l'enquête de l'indice de l'offre d'emploi (I.O.E.). Tous les mois, nous dénombrons les offres d'emploi parues dans 22 journaux des régions métropolitaines du pays. Les résultats sont publiés moins de dix jours après la collecte des données. L'indice est donc une source précieuse et actuelle de renseignements sur le marché du travail.

L'indice permet de mesurer la demande de main-d'oeuvre selon les grandes régions du Canada et selon les régions métropolitaines telles que Vancouver, Winnipeg, Toronto, Montréal et Halifax. En fait, c'est le seul indicateur de la demande de maind'oeuvre publié régulièrement par Statistique Canada.

Help Wanted Index data add one more "piece of the picture" to your research project.

## **Highlights**

### **Faits saillants**

Employment, Earnings and Hours October 1996 (preliminary) Seasonally adjusted

Following three months of consecutive declines, businesses recouped employment in October adding 29,000 employees to their payrolls. While this offset some of the previous declines, the number of employees is down nearly 100,000 since January 1996. The gain in October was concentrated in most industries in Quebec, as well among retailers in Ontario. The number of employees in other provinces was little changed.

Emploi, gains et durée du travail Octobre 1996 (données provisoires) Données désaisonnalisées

À la suite de trois mois de baisses consécutives, le nombre de personnes inscrites sur les listes de paye des employeurs s'est redressé de 29 000 en octobre. Alors que cette hausse efface en partie les pertes des mois précédents, le nombre de salariés est inférieur de 100 000 comparativement à janvier. Cette hausse d'emplois, a été concentrée dans la plupart des industries au Québec, ainsi que dans les commerces de détail de l'Ontario. Le niveau de l'emploi a peu varié dans les autres provinces.

Employees on business payrolls increased by 29,000 in October/

Le nombre de salariés inscrits sur la liste de paye a augmenté de 29,000 en octobre.

Employees' average weekly earnings rose by 1.0% in October to \$592.64. Employees in manufacturing, finance, insurance and real estate benefited the most from the increase. This growth followed five months of no significant change in the level of weekly earnings. These are now 3.0% higher than in October 1995.

Increased average hours worked by employees paid by the hour was largely responsible for the earnings growth in October. The increase in hours worked was widespread in most industries and particularly notable in mining, quarrying and oil wells (+6.4%) and construction (+3.2%).

La rémunération hebdomadaire moyenne a fait un bond de 1,0% en octobre pour se fixer à 592,64 \$. Cette augmentation avait été précédée de cinq mois sans changement significatif dans le niveau des gains moyens. Les salariés des manufactures et du secteur de la finance, des assurances et des affaires immobilières sont ceux qui ont bénéficié le plus de la hausse de la rémunération ce mois-ci. Comparée à celle d'octobre 1995, la rémunération est de 3,0% plus élevée.

Une hausse du nombre d'heures travaillées en moyenne par les salariés rémunérés à l'heure est en grande partie responsable de la variation des gains en octobre. La hausse du nombre d'heures, qui a été répartie dans la plupart des industries, a été particulièrement notable dans le secteur des mines, des carrières et des puits de pétrole (+6,4%) et dans celui de la construction (+3,2%).

#### Retailers boost employment levels

After reaching a peak in January, the number of employees in retail trade followed a downward trend until July. The number of workers in this sector remained stable in August and September, but expanded by 11,000 in October. Employment gains were concentrated in Ontario, among general retail merchandisers and retail food stores. The growth coincides with an increase in retail sales for the same month.

Average weekly earnings for retail employees rose 1.0% in October. A 1.3% increase in the average number of hours worked by employees paid by the hour contributed strongly to the earnings growth.

#### Construction's declining trend ends

Following monthly declines, which reduced employment in the construction sector by 25,000 between March and July, the level of employment has stabilised and rebounded by 5,000 in October. The increase was concentrated in Quebec among trade contracting companies, and coincided with a rebound in the value of building permits requested.

Weekly earnings for construction employees rose sharply in October. The gain of \$10.24 per week was mainly due to a substantial increase in hours worked by employees paid by the hour. Since the start of the year, the average number of hours worked per week has followed an upward trend.

## GM strike results in declines in manufacturing employment

A slight decline in employment levels was registered by manufacturers in October. Manufacturers of automotive parts and accessories in Ontario accounted for most of the decline. The sluggishness coincided with a slowdown in shipments due to the three-week strike at GM automobile manufacturers. The slow but steady growth trend, which has characterised the manufacturing industry since 1992, has stopped momentarily, as employment has been reduced by 13,000 during the past three months.

Weekly earnings for manufacturing employees expanded significantly in October, due to a rise in the number of hours worked by employees paid by the hour. On average, employees earned \$725.27, a 3.6% increase from the same period in 1995.

## The number of employees in food and beverage services continued to fluctuate

The number of employees working in food and beverage services grew by 7,000 in October, following the monthly fluctuations that have characterised this industry recently. October's increase was concentrated in Ontario, and to a lesser extent in Quebec and Alberta. Declines were recorded in British Columbia.

#### Le niveau de l'emploi se redresse dans le commerce de détail

Après avoir atteint un sommet en janvier, le niveau de l'emploi dans le commerce de détail s'est engagé par la suite dans une tendance à la baisse qui a duré jusqu'en juillet. Le nombre de salariés dans ce secteur, qui est resté stable au cours des mois d'août et de septembre, a bondi de 11 000 en octobre. La hausse de l'emploi a été concentrée en Ontario et dans les magasins de marchandises diverses ainsi que dans les commerces d'alimentation. Cette augmentation coïncide avec une hausse dans les ventes pour le même mois.

La rémunération hebdomadaire moyenne s'est accrue de 1,0% en octobre. Une augmentation de 1,3 % du nombre moyen d'heures travaillées par les salariés rémunérés à l'heure a fortement contribué à la hausse de la rémunération.

### Les fluctuations à la baisse se sont arrêtées dans le secteur de la construction

À la suite de fluctuations mensuelles à la baisse, qui ont soustrait 25 000 salariés du secteur de la construction entre mars et juillet 1996, le niveau de l'emploi s'est stabilisé depuis pour rebondir de 5 000 en octobre. Cette augmentation, qui a été concentrée au Québec et chez les entrepreneurs spécialisés, coïncide avec une remontée en octobre de la valeur des demandes de permis de construction.

La rémunération hebdomadaire moyenne a fortement augmenté en octobre. Cette hausse de 10,24 \$ est principalement due à une forte augmentation du nombre moyen d'heures travailllées par les salariés rémunérés à l'heure. Depuis le début de l'année, le nombre moyen d'heures travaillées par semaine s'est engagé dans des fluctuations à la hausse.

## La grève chez GM entraîne l'emploi à la baisse dans le secteur manufacturier

Une légère baisse de l'emploi en octobre a été constatée dans le secteur manufacturier. Le secteur des pièces et accessoires pour véhicules automobiles de l'Ontario est principalement à l'origine de la diminution de l'emploi. Cette faiblesse de l'emploi s'est produite alors qu'il y a eu un ralentissement des livraisons attribuable à la grève de trois semaines chez le constructeur d'automobiles GM. La tendance lente mais constante à la hausse qui caractérise cette industrie depuis 1992 s'est momentanément arrêtée, alors que 13 000 emplois ont été perdus au cours des trois derniers mois.

La rémunération hebdomadaire moyenne chez les salariés des manufactures s'est fortement accrue en octobre à la faveur d'une hausse du nombre moyen d'heures travaillées par semaine par les salariés rémunérés à l'heure. La rémunération moyenne se situe à 725,27 \$, ce qui constitue 3,6 % de plus qu'à pareille date l'an dernier.

## De fortes fluctuations mensuelles caractérisent encore la restauration

Le nombre de salariés oeuvrant dans la restauration s'est accru de 7 000 en octobre, poursuivant ainsi les fluctuations mensuelles qui caractérisent ce secteur depuis les derniers mois. L'augmentation en octobre a été concentrée en Ontario, et dans une moindre mesure au Québec et en Alberta, alors qu'il y a eu une baisse en Colombie-Britannique.

## Tableau 1

Seasonally Adjusted Estimates of Employment, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).

Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

Led by retail trade, employment in service producing industries rebounded slightly in October, after a loss of 151,600 over the previous five months.

Mené par le commerce de détail, l'emploi dans la branche productrice de services a augmenté légèrement en octobre. Cette augmentation faisait suite à une baisse de 151 600 emplois enregistrée durant les cinq derniers mois.

Employment, Earnings and Hours, 1996 Statistics Canada - Cat. No. 72-002-XPB

# Tableau 2

Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).

Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

Following a slowdown that started in the first half of 1993, average weekly earnings growth in Alberta regained momentum in 1996.

At the industrial aggregate level, average weekly earnings in the province, grew by \$43.15 since January 1996.

Suite au ralentissement amorcé durant la première moitié de 1993, la rémunération hebdomadaire moyenne était à la hausse en 1996.

Dans cette province, la rémunération hebdomadaire moyenne pour l'ensemble des industries a augmenté de 43,15\$ depuis janvier 1996.

# Tableau 3

Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996). Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

The annual increase for the fixed-weighted index of average hourly earnings, remained virtually unchanged from last month.

In October, growth in earnings varied by industry, ranging from gains of 0.08% in mining, quarrying and oil wells, to 8.07% in finance, insurance and real estate.

La croissance annuelle de l'indice à pondération fixe de la rémunération horaire moyenne est demeurée pratiquement identique au mois passé.

En octobre, la croissance de la rémunération par industrie variait de 0,08% dans les mines, carrières et puits de pétrole à 8,07% dans les finances, assurances et affaires immobilières.

# Tableau 4

Number of Industries Showing Year-Over-Year Increases in Employment, for Selected Industries, Canada, (1992-1996). Nombre d'industries démontrant des augmentations d'emploi d'une année à l'autre, pour une sélection d'industries, Canada (1992-1996).

In October the number of industries showing yearover-year increases in employment increased for the second month in a row. Employment gains were concentrated in the service producing industries with increases in both wholesale and retail trade as well as commercial and non-commercial services. En octobre, le nombre d'industries démontrant une croissance annuelle de l'emploi a augmenté pour un deuxième mois consécutif. Les augmentations d'emploi étaient concentrées dans la branche productrice des services surtout dans le commerce de gros et de détail et dans les services commerciaux et non commerciaux.

Employment, Earnings and Hours, 1996 Statistics Canada - Cat. No. 72-002-XPB

# Tableau 5

Estimates of Employment, Payrolls and Average Weekly Earnings, for All Employees, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération brute et de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, par industrie, Canada, provinces et territoires.

Total employment decreased by 58,300 in the past year. Declines were widespread in most major industry groups with the exception of manufacturing which increased by 11,600 and community, businesses and personal services which registered a small increase of 4,300 employees.

L'emploi total a diminué de 58 300 durant la dernière année. Les baisses étaient réparties dans la plupart des industries majeures. Seuls les industries manufacturières et les services socio-culturels, commerciaux et personnels ont enregistré des hausses d'emploi soit 11 600 et 4 300 respectivement.

## Tableau 6

Estimates of Employment, Average Hourly Earnings and Hours, for Employees Paid by the Hour, by Industry, Canada, Provinces and Territories. Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les salariés rémunérés à l'heure, par industrie, Canada, provinces et territoires.

Average weekly hours (including overtime) for employees paid by the hour have increased by 1% to 31.3 since October 1995. Hours in the construction industries increased the most rising 4.8% to 39 hours a week while those in the logging and forestry industry fell 3.8% to 40.5 per week.

Les heures hebdomadaires moyennes (incluant le temps supplémentaire) pour les salariés rémunérés à l'heure étaient de 31,3 soit une augmentation de 1% depuis octobre 1995. C'est dans l'industrie de la construction que les heures ont augmenté le plus soit 4,8% pour se fixer à 39 heures par semaine alors que dans l'industrie des forêts et services forestiers, les heures diminuaient de 3,8% pour s'établir à 40,5.

Estimates of Employment, Average Hourly Earnings and Hours, for Salaried Employees, by Industry, Canada, Provinces and Territories. Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les employés (à salaire fixe), par industrie, Canada, provinces et territoires.

In October, average weekly earnings (including overtime) for salaried employees in the mining, quarrying and oil wells industries rose by 12.2% to \$1299.46 since October 1995. Earnings in the mining industries increased by only 4.5% to \$1174.02 while salaried employees in services incidental to mineral extraction saw their earnings increase by 26.6% to \$1275.85.

En octobre, la rémunération hebdomadaire moyenne (incluant le temps supplémentaire), pour les employés dans les mines carrières et puits de pétrole, était de 1299,46\$ soit une augmentation de 12,2% depuis octobre 1995. La rémunération dans les mines augmentait que de 4,5% (1174,02\$) alors que dans les services relatifs à l'extraction minière, les employés ont vu leur rémunération augmenté de 26,6% pour s'établir à 1275,85\$.

**Establishment:** is a survey based on a census of establishment (questionnaires sent on a monthly basis).

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters ( medium and large businesses reporting more than once a month).

**Établissement**: est une enquête basée sur un recensement d'établissements (questionnaires envoyés mensuellement).

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

Pick a topic...
any topic

The 1994 Statistics Canada Catalogue is your guide to the most complete collection of facts and figures on Canada's changing business, social and economic environment. No matter what you need to know, the Catalogue will point you in the right direction.

From the most popular topics of the day – like employment, income, trade, and education – to specific research studies – like mineral products shipped from Canadian ports and criminal victimization in urban areas – you'll find it all here.

#### ... the 1994 Statistics Canada Catalogue will help you get your bearings...

The Catalogue puts all this information at your fingertips. With the expanded index, you can search by subject, author or title – even periodical articles are indexed. There's also a separate index for all our electronic products.

The **Catalogue** has everything you need to access all Statistics Canada's products:

- descriptions of over 25 new titles, plus succinct abstracts of the over 650 titles and 7 map series already produced;
- a complete guide to finding and using statistics;
- electronic products in a variety of media, and

advice on getting expert assistance on electronic products and on-line searches:

tabs to each section -- so you can immediately flip to the information you need.

#### ... time and time again

To make sure that the **Catalogue** stands up to frequent use, we used a specially coated cover to prevent broken spines, tattered edges and dog-eared corners.

Order today – you'll be lost without it.

#### 1994 Statistics Canada Catalogue

Only \$15 (plus GST and applicable PST) in Canada (US\$18 in the U.S. and US\$21 in other countries). Quote Cat. no. 11-2040XPE.

Le Catalogue de Statistique
Canada 1994 est votre guide pour
la collection la plus complète de
faits et de chiffres dans les
domaines, en constante évolution,
du commerce, de la société et de
l'économie du Canada. Peu importe
ce que vous voulez savoir, le
Catalogue vous mettra sur la
bonne piste.

Des sujets actuels les plus populaires – comme l'emploi, le revenu, le commerce et l'éducation – à des études de recherche spécialisées – comme les produits minéraux expédiés des ports canadiens et la victimisation dans les régions urbaines –vous trouverez tout dans ce document.

#### Le Catalogue de Statistique Canada 1994 vous aidera à vous orienter...

Le **Catalogue** vous met tous ces renseignements sous la main. L'index augmenté vous permet de chercher par sujet, auteur ou titre – les articles de périodiques sont même indexés. On a aussi ajouté un index séparé pour tous nos produits électroniques.

Le **Catalogue** a tout ce qu'il vous faut pour vous procurer les produits de Statistique Canada:

- descriptions de plus de 25 nouveaux titres et courts résumés des 650 titres et plus et des 7 séries de cartes déjà disponibles;
- guide complet pour obtenir et utiliser les données statistiques;
- produits électroniques sur supports divers et conseils sur l'obtention d'aide d'experts pour

les produits électroniques et les recherches en direct;

système d'onglets pour chaque section - pour que vous puissiez immédiatement repérer les renseignements qui vous intéressent.

#### ...maintes et maintes fois

Pour garantir que le **Catalogue** puisse résister à une utilisation fréquente, nous avons utilisé une couverture avec un revêtement spécial conçue pour éviter les dos cassés, les bords abîmés et les coins de page pliés.

Commandez aujourd'hui – vous ne pourrez plus vous en passer.

# Hire our Notre équipe de team of chercheurs est à researchers for votre service pour \$56 a year 56 \$ par année

But Perspectives is more than just facts and figures. It offers authoritative insights into complex

labour and income issues, analyzing the statistics to bring you simple, clear summaries of labour market and income trends.

Our team of experts brings you the latest labour and income data. Each quarterly issue provides:

- topical articles on current labour and income trends
- more than 50 key labour and income indicators
- a review of ongoing research
- information on new surveys

As a special bonus, twice a year you will also receive The Labour Market Review, giving you timely analysis on labour market performance over the previous six months or year.

#### And all for only \$56!

Thousands of Canadian professionals turn to Perspectives to discover emerging trends in labour and income and to stay up to date on the latest research findings. As a subscriber, you will get the inside story. We know you'll find Perspectives indispensable. GUARANTEED. If you aren't convinced after reading the first issue, we'll give you a FULL REFUND on all outstanding issues. Order your subscription to Perspectives today (Cat. No. 75-0010XPE).

#### ORDER NOW!

For only \$56 (plus \$3.92 GST and applicable PST) you will receive the latest labour and income research (4 issues per year). Subscription rates are US\$68 for U.S. customers and US\$80 for customers in other countries. Fax your VISA or MasterCard order to: (613) 951-1584. Call toll free: 1-800-267-6677. Or mail to: Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Ave., Ottawa, Ontario K1A 0T6. Or contact your nearest Statistics Canada Reference Centre listed in this publication. Via Internet: order@statcan.ca

La publication n'a pas que des faits et des chiffres. Elle offre également des analyses de fond sur des questions complexes touchant l'emploi et le revenu, de façon à fournir des indications claires et précises sur les

tendances actuelles du marché du travail et des revenus.

Notre équipe de spécialistes met à votre disposition des données récentes sur l'emploi et le revenu. Dans chacun des numéros trimestriels, vous trouverez :

- m des articles de fond sur l'emploi et le revenu
- plus de 50 indicateurs clés de l'emploi et du revenu
- un aperçu de la recherche en cours
- de l'information sur les nouvelles enquêtes

En prime, vous recevrez le Bilan du marché du travail deux fois l'an. Vous disposerez ainsi d'une analyse à jour de la situation du marché du travail pour les six derniers mois ou la dernière année.

#### Tout cela pour 56 \$ seulement!

Des milliers de professionnels au Canada consultent Perspective pour connaître les tendances de l'emploi et du revenu, ainsi que les plus récents résultats de recherche. Votre abonnement vous permettra de connaître tous les faits.

Nous savons que L'emploi et le revenu en perspective deviendra pour vous un outil indispensable. C'EST GARANTI. Si vous n'êtes pas satisfait après avoir lu le premier numéro, nous vous REMBOURSERONS le montant payé pour les numéros à venir. Abonnez-vous à Perspective (n° 75-0010XPF au cat.) dès aujourd'hui.

#### ABONNEZ-VOUS DÈS MAINTENANT!

Pour 56 \$ seulement (plus 3.92 \$ de TPS et la TVP en vigueur en sus), vous recevrez les plus récentes recherches sur l'emploi et le revenu (quatre numéros par année). L'abonnement est de 68 \$ US aux États-Unis et de 80 \$ US dans les autres pays. Faites parvenir votre commande par télécopieur (VISA ou MasterCard) au (613) 951-1584, par téléphone (sans frais) au 1-800-267-6677, par courrier à Statistique Canada, Division des Opérations et de l'intégration, Direction de la circulation, 120, avenue Parkdale, Ottawa (Ontario) K1A 0T6. Ou communiquez avec le Centre de consultation de Statistique Canada le plus près. (Voir la liste dans la présente publication). Via l'Internet: order@statcan.ca

# Don't let this happen to you!

Ne vous laissez pas dépasser par les événements!

magine you're
called upon to make a really
important business decision. You spend
some anxious days weighing your
options. You examine the available data.
Finally, you make your decision...

#### ...only to discover too late that your information was incomplete or outdated!

If you've ever experienced this type of frustration... or if your reputation ever depends on the quality of the data you refer to... **Infomat** is for <u>you</u>.

Infomat is your fastest and easiest way to keep on top of important Canadian economic and social trends. Since it comes to you weekly not daily – issues won't pile up unread. And, in just one publication, you'll have the answers to almost anything:

- price indexes
- manufacturing shipments and orders
- imports and exports
- labour market conditions, and
- dozens of key social and economic indicators!

And because *Infomat* is based on over 100 ongoing Statistics Canada surveys, no other source is more timely or more reliable.

Infomat is specially designed and written for

you – a busy manager with no time to waste!

### Join the confident, successful decision-makers in the country and subscribe to Infomat today!

Infernet (catalogue no. 11-0020XPE) is only \$140° per year in Canada, US\$168 in the U.S. and US\$166 in other countries. Also available by Fax Service: 50 issues for \$600° in Canada, US\$600 in the U.S. and US\$500 in other countries.

CALL TOLL-FREE 1-889-267-6677 OR FAX (613) 951-1584 and use your VISA or MasterCard.

OR MAIL your order to: Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 076, or contact the nearest Statistics Canada Regional Reference Centre listed in this publication.

Via Internet: order@statcan.ca \*plus GST and applicable PST

maginez que vous devez prendre une décision de gestion très importante. Vous vous faites du mauvais sang pendant quelques jours à évaluer vos options. Vous examinez les données disponibles. Vous vous décidez enfin...

#### ... pour vous rendre compte trop tard que vous vous êtes fondé sur de l'information incomplète ou périmée!

Si vous avez déjà vécu ce genre de situation... ou si vous devez un jour miser votre réputation sur la qualité des données que vous avancez... *Infomat* est pour <u>vous</u>.

Infomat est la façon la <u>plus rapide</u> et la <u>plus facile</u> de se tenir au courant des tendances économiques et sociales importantes au Canada. Comme il s'agit d'un hebdomadaire – non d'un quotidien – vous aurez le temps de le lire. Et dans <u>une seule</u> et même publication, vous trouverez réponse à presque tout :

- indices de prix
- livraisons et commandes des fabricants
- importations et exportations
- situation du marché du travail, et des
- dizaines d'indicateurs socio-économiques clés!

Et comme **Infomat** est fondé sur plus de 100 enquêtes permanentes de Statistique Canada, aucune autre source n'est plus à jour ou plus fiable.

**Infomat** est conçu et rédigé pour des gens comme vous – des gestionnaires qui n'ont pas de temps à perdre!

#### Faites comme bien d'autres décideurs au pays qui ont réussi et abonnez-vous à Infomat aujourd'hui même!

Infemat (n° 11-0020XPF au catalogue) ne coûte que 140 \$\* par année au Canada, 168 \$ US aux États-Unis et 196 \$ US dans les autres pays. Nous vous offrons également le service de télécopie : 50 numéros pour 600 \$\* au Canada, 600 \$ US aux États-Unis et 600 \$ US dans les autres pays.

Vous pouvez nous joindre PAR TÉLÉPHONE AU 1-888-267-5677 ou PAR TÉLÉCOPIEUR au (613) 951-1584 et utiliser votre carte VISA ou

MasterCard. Ou envoyez votre commande PAR LA POSTE à : Statistique Canada, Division des opérations et de l'intégration, Direction de la circulation, 120, avenue Parkdale, Ottawa (Ontario), KIA 0T6. Vous pouvez aussi communiquer avec le Centre de consultation de Statistique Canada le plus près. La liste de ces centres se retrouve dans la présente publication.

#### Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

#### How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Analysis and Dissemination Section, Labour Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone (613) 951-4090) or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405

#### Standards of service to the public

To maintain quality service to the public, Statistics Canada follows established standards covering statistical products and services, delivery of statistical information, cost-recovered services and services to respondents. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

#### Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

#### Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Section de l'analyse et de la diffusion, Division du travail, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-4090) ou à l'un des centres de consultation régionaux de Statistique Canada :

Ottawa

#### Note of appreciation

Canada owes the success of its statistical system to a long-standing co-operation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

#### Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles. Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

#### Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

#### **Symbols**

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

#### Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- -- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

#### Note on CANSIM

The data published in Employment, Earnings and Hours (Catalogue No. 72-002-XPB) are also available in machine readable form through CANSIM (Canadian Socio-Economic Information Management System). Users interested in accessing data via CANSIM should contact one of Statistics Canada's regional centres at the numbers listed on the inside front cover of this publication, or contact the Marketing division, Statistics Canada, R.H. Coats Building, Ottawa, Ontario, k1A 0T6 (613) 951-8200

#### **Note concernant CANSIM**

Les données qui sont publiées dans l'Emploi, gains et durée du travail (n° 72-002-XPB au catalogue) peuvent être obtenues sous forme lisible par machine de CANSIM (Système Canadien d'information socio-économique). Les utilisateurs voulant obtenir des chiffres par l'intermédiaire de CANSIM peuvent contacter un des centres de consultation de Statistique Canada dont les numéros de téléphone figurent à l'endos du couvert de cette publication ou en communiquant directement avec la division du marketing, Statistique Canada, Immeuble R.H. Coats, Ottawa, Ontario, K1A 0T6 (613)951-8200.

#### Design your own table

Design your own table to order Employment, Payrolls and Hours data in the detail you need it. All data collected by the survey can be custom tabulated to meet your particular data needs. A consultant will help you custom design your tabulation. Our office is open from 8:00 A.M. to 4:30 P.M..

Telephone: (613) 951-4090 Facsimile: (613) 951-4087 Internet: labr@statcan.ca

#### Commandez votre propre tableau

Commandez votre propre tableau des données de l'emploi, de la rémunération et des heures de travail, selon le détail désiré. Toutes les données recueillies par l'enquête peuvent être totalisées selon vos besoins. Un consultant est disponible pour vous aider à créer votre propre tableau. Notre bureau est ouvert entre 8:00 et 16:30 heures.

Téléphone : (613) 951-4090 Télecopieur : (613) 951-4087 Internet: labr@statcan.ca

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANS1 Z39.48 - 1984.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48-1984.

#### **Survey Overview**

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and defence services. Conceptually, the SEPH reference period is the last seven days of the month, but the questionnaire asks respondents to report for the last pay period in the month.

#### Methodology

The statistics contained in this publication are based on:

- a census of establishments within enterprises with a complex structure and having approximately 300 or more employees,
- a census of administrative records having approximately 100 employees or more,
- a sample of administrative records having approximately 99 employees or less,
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

The total payroll employment estimates are derived by adding up the employment data obtained by integrating two different sources, the Establishment survey and the Administrative records. However, processes are independent for the sample selection, data collection and estimation. The Establishment Survey accounts for about 35% of the total payroll employment, while the remaining portion is from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficient needed to estimate data not reported on the administrative records. Combining different sources, BPS, Administrative Survey, and Establishment Survey results in the full range of SEPH variables.

#### TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification (SIC). A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501-XPB. In the tables of this

#### Aperçu de l'enquête

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services de la défense. En théorie, la période de référence de l'EERH correspond aux sept derniers jours du mois, mais les répondants doivent remplir le questionnaire en tenant compte de la dernière période de paye du mois.

#### Méthodologie

Les statistiques comprises dans la présente publication sont fondées sur:

- un recensement d'établissements à l'intérieur d'entreprises ayant une structure complexe et comprenant approximativement plus de 300 salariés.
- un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

Le nombre total de salariés inscrits sur la liste de paye est obtenu en additionnant l'emploi provenant de deux différents volets de l'enquête soit celui des enquêtes sur les établissements et celui des dossiers administratifs. Toutefois, les procédés sont distincts pour le choix de l'échantillon, la collecte des données et les estimations. L'enquête sur les établissements représente environ 35% du total des salariés inscrits sur les listes de paye, le reste provenant des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. différents volets soit l'ERE, les dossiers administratifs ainsi que l'enquête sur les établissements sont combinés en vue de produire toutes les variables propres à l'EERH.

#### **TERMES ET DÉFINITIONS**

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 (CTI) est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501-XPB. Dans les tableaux de cette publication,

publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except for defence services and other government services).
- e) Durable goods (39U) manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339) and non-metallic mineral products (351-359).
- f) Non-durable goods (37U) manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379) and other manufacturing industries (391-399).
- g) Commercial services (95U) consist of the following industries; business services (771-779), accommodation services (911-914), food and beverage services (921-922), amusement and recreational services (961-969), personal services (971-979), membership organization (982-986) and other service industries (991-999).
- Non-commercial services (94U) consist of the following industries; educational and related services (851-859) and health and social services (861-869).

une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- a) Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- c) Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services de la défense et autres services gouvernementaux).
- e) Biens durables (39U) des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339) et produits minéraux non métalliques (351-359).
- f) Biens non durables (37U) des industries manufacturières englobe les industries suivantes; aliments (101-109), boisson (111-114), tabac (121-122), produits en caoutchouc (151-159), produits en matière plastique (161-169), cuir (171), première transformation du textile (181-183), produits textiles (191-199), habillement (243-249), papier et produits connexes (271-279), imprimerie, édition et industries connexes (281-284), produits raffinés du pétrole et du charbon (361-369), produits chimiques (371-379) et autres industries manufacturières (391-399).
- g) Services commerciaux (95U) englobe les industries suivantes; services aux entreprises (771-779), hébergement (911-914), restauration (921-922), services de divertissements et loisirs (961-969), services personnels (971-979), associations commerciales (982-986) et autres industries de services (991-999).
- Services non commerciaux (94U) englobe les industries suivantes; services d'enseignement et services annexes (851-859) et services de soins de santé et services sociaux (861-869).

- i) Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- j) Other amusement and recreational services (960) consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).
- k) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

#### **Variables**

#### **Employee**

The employment is derived by adding up data derived from two sources; the establishment survey and from the administrative records. Since the data for the different employee categories are not reported on the administrative records the BPS survey is conducted to estimate ratios needed to calculated those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The definition excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

- i) Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bancaire (702).
- j) Services de divertissements et de loisirs (960) englobe les industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).
- k) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

#### **Variables**

#### Salarié

L'emploi est obtenu en additionnant les données provenants de sources différentes; l'enquête sur les établissements et des dossiers administratifs. Toutefois les estimations pour les différents types d'emplois ne sont pas rapporter sur les dossiers administratifs, l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servants à estimer ces variables.

L'enquête définie un employé comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le terme "salarié" désigne les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en corporation, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

#### The employees are classified into the following categories:

a) **Employees paid by the hour:** any employee whose basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff:* All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counsellor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

b) \*Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staff:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

c) \*Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category supply or substitute teachers: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

#### Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, enemployment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to unemployment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period.

#### Les salariés sont classés dans les catégories suivantes:

 a) Salariés rémunérés à l'heure: tout salarié dont la rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le *personnel non enseignant*: tous les salariés autres que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économe, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge, pourvoyeur, chauffeur d'autobus, etc.)

b) \*Employés: tout salarié dont la rémunération de base constitue une somme fixe versée pour au moins une semaine. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le **personnel enseignant**: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplaçants sont exclus.

c) \*Autres salariés: tout salarié dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de milage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), post secondaire (852) et universitaire (853), représente dans cette catégorie le personnel *suppléants ou remplaçants*: enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

#### Rémunération hebdomadaire brute:

La rémunération brute est défénie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ca représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-chômage etc.., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements speciaux. Les concepts sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-chômage, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence.

The payroll is derived by adding up data derived from two sources, the Establishment survey and the Administrative records

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours for employees paid by the hour by the number of employees paid by the hour. Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence. Although the standard work week for salaried employees is not included in this document, this data remains available.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls for employees paid by the hour by the total number of weekly hours for employees paid by the hour. Average hourly earnings are calculated for the hourly-rated employees and for the \*salaried employees.

\*Data for other employees and salaried employees are available in the monthly publication (cat. 72-002-XPB) or directly from the Labour Division ((613) 951-4090).

La rémunération brute est obtenue en additionnant les données provenant de sources différentes soit l'enquête sur les établissements et les dossiers administratifs

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées des salariés rémunérés à l'heure par le nombre de salariés rémunérés à l'heure. Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées. Même si le nombre d'heures dans une semaine normale de travail ne figure pas dans ce document, ces données demeurent disponibles.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute des salariés rémunérés à l'heure par le nombre d' heures travaillées de ces même salariés. La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des \*employés.

\*Les données pour les autres salariés et pour les employés sont disponibles soit dans la publication mensuelle (72-002-XPB) ou auprès de la division du travail au ((613) 951-4090).

You can obtain a more detailed description of the concepts and methods of the SEPH program in the January issue of this publication (Annex 1) or contact Labour Division at (613) 951-4090.

Une description plus détaillée des concepts et des méthodes du programme de l'EERH figure dans l'édition de janvier de cette même publication (annexe 1) ou vous pouvez nous rejoindre à la division du travail au (613) 951-4090.

#### Discover What Help-Wanted Ads Can Tell You About Canada's Economy / Découvrez ce que les offres d'emploi révèlent sur l'économie canadienne

Help-wanted ads in newspapers are a *rich source of information about economic activity.* When the economy is growing, employers place help-wanted ads to attract new workers. Similarly, during an economic downturn, there is a decrease in the demand for labour so they advertise less. Since help-wanted ads reflect future hirings, changes in the level of ads provide early signals of labour market conditions, and of general economic activity.

That's why Statistics Canada conducts the Help-Wanted Index survey (HWI). Each month, we count the help-wanted ads published in 22 metropolitan area newspapers across the country. Results are released within ten days after each month's data has been collected. This makes the index a timely source of valuable labour market information.

The Help-Wanted Index measures changes in the demand for labour by region and by metropolitan areas like Vancouver, Winnipeg, Toronto, Montreal and Halifax, among others. In fact, it is the only indicator of labour demand compiled by Statistics Canada on a regular basis!

Les offres d'emploi publiées dans les journaux sont *une source abondante d'information sur l'économie*. En période de croissance économique, les employeurs font paraître les offres d'emploi afin d'attirer de nouveaux travailleurs. De la même façon, durant une période de ralentissement économique, la baisse de la demande de main-d'oeuvre entraîne une réduction du nombre d'annonces. Étant donné que les annonces d'offres d'emploi reflètent les intentions d'embauche future, leurs fluctuations peuvent fournir une indication précoce des conditions du marché du travail et de l'économie en général.

Voilà pourquoi Statistique Canada mène l'enquête de l'indice de l'offre d'emploi (I.O.E.). Tous les mois, nous dénombrons les offres d'emploi parues dans 22 journaux des régions métropolitaines du pays. Les résultats sont publiés moins de dix jours après la collecte des données. L'indice est donc une source précieuse et actuelle de renseignements sur le marché du travail.

L'indice permet de mesurer la demande de main-d'oeuvre selon les grandes régions du Canada et selon les régions métropolitaines telles que Vancouver, Winnipeg, Toronto, Montréal et Halifax. En fait, c'est le seul indicateur de la demande de maind'oeuvre publié régulièrement par Statistique Canada.

Help Wanted Index data add one more "piece of the picture" to your research project.

For more information about the index, call Sylvie Picard at or Michael Scrim at (613) 951-4090. Fax us at (613) 951-4087. Our Internet address is: labour@statcan.ca. If you prefer to write, our address is: Statistics Canada, Labour Division - Dissemination Section, 120 Parkdale Ave., Ottawa, Ontario, K1A 0T6.

Les données de l'indice de l'offre d'emploi ajoutent une autre "vue d'ensemble" à votre projet de recherche.

Pour plus de renseignements au sujet de l'indice, communiquez avec Sylvie Picard ou Michael Scrim (613-951-4090), télécopieur (613-951-4087). Notre adresse Internet est: labour@statcan.ca. Si vous préférez nous écrire, notre adresse est: Statistique Canada, Division du travail, - Section de diffusion, 120 Ave. Parkdale, Ottawa, Ontario, K1A 0T6.

## Table des matières

#### **Highlights**

In November, the number of employees on business payrolls rose for the second consecutive month. This increase of 53,000 was concentrated among manufacturers, with businesses in wholesale trade, transportation and construction also registering advances.

#### **Faits Saillants**

En novembre, le nombre de personnes inscrites sur les listes de paye des employeurs a augmenté pour un deuxième mois d'affilée. Cette hausse de 53 000 salariés a été concentrée chez les manufacturiers, alors que l'emploi a aussi augmenté dans le commerce de gros, le transport et la construction.

#### Table Tableau

- 1 Seasonally Adjusted Estimates of Employment, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).
- 1 Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).
- 2 Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, For Selected Industries, Canada, Provinces and Territories, (1992-1996).
- 2 Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).
- **3** Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).
- 3 Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).
- 4 Number of Industries Showing Year-Over-Year Increases in Employment, for Selected Industries, Canada, (1992-1996).
- 4 Nombre d'industries démontrant des augmentations d'emploi d'une année à l'autre, pour une sélection d'industries, Canada, (1992-1996).
- 5 Estimates of Employment, Payrolls and Average Weekly Earnings, for All Employees, by Industry, Canada, Provinces and Territories.
- 5 Estimations de l'emploi, de la rémunération brute et de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, par industrie, Canada, provinces et territoires.
- 6 Estimates of Employment, Average Hourly Earnings and Hours, for Employees Paid by the Hour, by Industry, Canada, Provinces and Territories.
- **6** Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les salariés rémunérés à l'heure, par industrie, Canada, provinces et territoires.

#### **Highlights**

#### **Faits saillants**

Employment, Earnings and Hours November 1996 (preliminary) Seasonally adjusted

In November, the number of employees on business payrolls rose for the second consecutive month. Paid employment has rebounded since September, following the downward trend that was observed during the first nine months of 1996, and now stands at about the same level as at the beginning of the year. The November incease, which totalled 53,000, was concentrated among manufacturers, with businesses in wholesale trade, transportation and construction also registering advances. Provincially, businesses in Ontario and Quebec, and to a lesser extent Alberta, accounted for most of the gains.

Emploi, gains et durée du travail Novembre 1996 (données provisoires) Données désaisonnalisées

En novembre, le nombre de personnes inscrites sur les listes de paye des employeurs a augmenté pour un deuxième mois d'affilé. Le nombre de salariés a rebondi depuis septembre, à la suite d'une tendance à la baisse observée au cours des neuf premiers mois de l'année. L'emploi est revenu presque au même niveau qu'au début de l'année. La hausse de 53 000 en novembre a été concentrée chez les manufacturiers, tandis que le nombre de salariés a aussi augmenté dans le commerce de gros, le transport et la construction. À l'échelle des provinces, l'Ontario et le Québec, et dans une moindre mesure l'Alberta, sont les principaux bénificiaires de la hausse.

Employees on business payrolls increased substantially in October and November/

Le nombre de salariés inscrits sur la liste de paye a fortement augmenté en octobre et en novembre.

Employees' average weekly earnings rose slightly in November to \$594.61. The marginal gain in earnings followed a substantial growth in October. Increased earnings were reported for employees in manufacturing, and logging and forestry, while earnings declined in business services, construction and public administration. Employees' earnings are now 3.1% higher than in November 1995.

La rémunération hebdomadaire moyenne a légèrement augmenté en novembre pour atteindre 594,61\$. Cette faible variation avait été précédée d'une forte croissance de la rémunération en octobre. Des hausses ont été constatées chez les manufacturiers et en foresterie, alors que la rémunération était à la baisse dans les services aux entreprises, la construction et l'administration publique. Comparativement à novembre 1995, la rémunération est de 3,1% plus élevée.

The average number of hours worked by employees paid by the hour continued an upward trend, reaching a peak of 31.2 hours. Hourly paid employees in most industries reported higher hours, particularly in goods producing industries. The increase in hours was due in part to more overtime.

#### End of GM strike leads employment gains in manufacturing

Following three months of little change, the number of manufacturing workers increased by 29,000 in November. The gain was concentrated in the automotive, clothing, plastic and plastic products industries. The gains occurred as the effects of the strike at General Motors came to an end and coincided with an increase in manufacturers' shipments, also led by the automotive sector. The higher employment was notable among manufacturers in Quebec and Ontario.

Manufacturing employees' average weekly earnings rose sharply in November, due to a jump in the average number of hours worked per week for employees paid by the hour. Average earnings stood at \$732.42, up 4.2% from the same period last year.

#### Transportation industry gains employment following privatization at Transport Canada

The number of workers in the transportation and storage industry grew by 9,000 in November. Two-thirds of this gain were due to the privatization of air navigation services formerly performed by Transport Canada. The creation of a not-for-profit private corporation - NAV CAN - resulted in a transfer of employees from public administration to the private sector.

Employees' average weekly earnings fell 1.3% in November, due to a drop in average earnings for salaried employees. The average number of hours worked and hourly earnings for employees paid by the hour, both increased in November.

#### **Employment rebound in construction industry**

Coinciding with the rising trend in residential building permits and a drop in mortgage rates, the number of employees working in the construction industry increased during each of the past two months (October and November). Employment gains were concentrated among trade contractors, and also in the provinces of Quebec and Alberta. The recent gains in the industry offset some of the declines incurred since the spring.

Employees' average weekly earnings continued to fluctuate around a downward trend in November, falling by 0.5% to \$694.42.

Le nombre d'heures travaillées en moyenne par les salariés rémunérés à l'heure a continué sa progression à la hausse pour se fixer à un sommet de 31,2 heures. Une hausse du nombre d'heures a été rapportée par les salariés rémunérés à l'heure de presque toutes les industries, en particulier dans les industries productrices de biens. Cette augmentation des heures est en partie attribuable à une hausse du temps supplémentaire.

#### La fin de la grève chez GM entraîne une hausse d'emploi dans le secteur manufacturier

Après trois mois de stagnation, le niveau de l'emploi dans le secteur manufacturier a fait un bond de 29 000 en novembre. Cette hausse a été constatée dans les secteurs des véhicules automobiles, de l'habillement et des industries des produits en matière plastique. Cette augmentation de l'emploi a eu lieu au moment où la grève prenait fin chez le manufacturier GM et coïncide avec une hausse des livraisons chez les manufacturiers, aussi attribuable au secteur automobile. Le nombre de salariés dans le secteur manufacturier a surtout augmenté au Québec et en Ontario.

La rémunération hebdomadaire moyenne chez les salariés des manufactures s'est fortement accrue en novembre à la faveur d'une hausse du nombre moyen d'heures travaillées par semaine par les salariés rémunérés à l'heure. La rémunération moyenne se situe à 732,42\$, ce qui constitue 4,2% de plus qu'à pareille date l'année précédente.

#### L'emploi se redresse dans le transport à la suite de la privatisation de Transport Canada

Le nombre de salariés dans le secteur des transports et entreposage s'est accru de 9 000 en novembre. Les deux tiers de cette hausse sont attribuables à la privatisation des activités de la navigation aérienne du ministère des Transports du Canada. La création de la société à but non lucratif NAV-CAN a mené à un transfert d'employés du secteur de l'administration publique au secteur privé.

La rémunération hebdomadaire moyenne a diminué de 1,3% en novembre à la suite d'une baisse des gains moyens chez les employés à salaires fixes. Le nombre d'heures travaillées et le gain horaire chez les salariés rémunérés à l'heure se sont accrus en novembre.

#### Remonté de l'emploi dans le secteur de la construction

Suivant les intentions de construction résidentielle et la baisse des taux hypothécaires, le nombre de salariés oeuvrant dans la construction a monté en octobre et en novembre derniers. La hausse de l'emploi a surtout été concentrée dans le secteur des entrepreneurs spécialisés ainsi qu'au Québec et en Alberta. Cette croissance récente annulle en partie les fluctuations à la baisse enregistrées depuis le printemps.

La rémunération hebdomadaire moyenne a continué ses fluctuations à la baisse, diminuant de 0,5% en novembre pour atteindre 694.42\$.

#### Second consecutive gain in wholesale trade

Wholesalers increased employment levels for the second consecutive month in November, with wholesalers of miscellaneous products and wholesalers of electric and electronic products (which includes trade in computer equipment) registering the most substantial gains. Despite the fact that wholesalers have increased sales by about 8.0% since the beginning of the year, the number of employees in the industry has increased by only 1.3%. The relative stability in wholesale trade employment during the past year contrasts with steady growth in employment registered in 1994 and 1995.

Average weekly earnings for wholesale trade employees were little changed in November.

#### Budget cuts and privatization result in decline for public administration

The workforce in federal administration was reduced by 5,000 in November, due mostly to the privatization of air navigation services previously performed by Transport Canada. Compared to last year, employment has declined by 16,000 for federal administration and a further 11,000 for provincial administration. During this period, the number of employees in municipal administration has remained virtually unchanged.

Average weekly earnings for public administration employees fell 0.4% in November. Employees in this industry earned on average \$6.40 less than in November 1995.■

#### Deuxième hausse mensuelle consécutive dans le commerce de gros

Le niveau de l'emploi dans le commerce de gros s'est accru en novembre pour un deuxième mois consécutif, les gains les plus importants étant concentrés dans les secteurs du commerce des produits divers et celui du matériel électrique et électronique (qui inclut le commerce des équipement informatique). Le commerce de gros compte seulement 1,3% de salariés de plus qu'en janvier 1996, bien que les ventes des grossistes se soient accrues de 8,0% depuis le début de l'année. Cette stagnation relative de l'emploi dans ce secteur au cours de la dernière année contraste avec la croissance presque continue enregistrée en 1994 et 1995.

La rémunération hebdomadaire moyenne dans le commerce de gros a peu varié en novembre.

#### La réduction des dépenses et les privatisations ont mené à une baisse de l'emploi dans l'administration publique

Les effectifs de l'administration fédérale ont été réduits de 5 000 en novembre, principalement en raison de la privatisation des activités de navigation aérienne, autrefois assumées par Transports Canada. Comparativement à la même période l'année précédente, la diminution du nombre de salariés a atteint 16 000 dans l'administration fédérale et 11 000 dans les administrations provinciales. Par contre, le nombre d'emploi dans les administrations locales est resté sensiblement le même.

La rémunération hebdomadaire moyenne dans l'administration publique a baissé de 0,4% en novembre. Les salariés de ce secteur gagnaient en moyenne 6,40\$ de moins qu'en novembre 1995.■

## Tableau 1

Seasonally Adjusted Estimates of Employment, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).

Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

Employment increased in each of the last three months in Quebec and Alberta. Both provinces have enjoyed above average employment growth over this period (1.9% and 2.0% respectively).

Pendant chacun des trois derniers mois, l'emploi a augmenté au Québec et en Alberta. Durant cette période, les deux provinces ont enregistré une croissance de l'emploi supérieure à la moyenne, soit 1,9% et 2,0% respectivement.

# Tableau 3

Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996). Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

The year-over-year growth rate of the fixed-weighted average hourly earnings index declined below 2.5% in November, for the first time since April 1996.

The reduced year-over-year growth rate was spread across all major industry groups, with the exception of logging and forestry, manufacturing and finance, insurance and real estate.

En novembre, le taux de croissance annuelle de l'indice à pondération fixe de la rémunération horaire moyenne était inférieur à 2,5%, et ce, pour la première fois depuis avril 1996.

Le taux réduit de croissance annuelle était réparti dans toutes les industries majeures, à l'exception de l'exploitation forestière et les services forestiers, des industries manufacturières et des finances, assurances et affaires immobilières.

# Tableau 4

Number of Industries Showing Year-Over-Year Increases in Employment, for Selected Industries, Canada, (1992-1996). Nombre d'industries démontrant des augmentations d'emploi d'une année à l'autre, pour une sélection d'industries, Canada (1992-1996).

The number of industries recording year-over-year employment gains increased from 50.0 percent in October to 51.0 percent in November. More industries in transport, storage, wholesale and retail trade gained employment while industries in manufacturing lost employment

Le nombre d'industries ayant enregistré des hausses d'emploi a augmenté de 50% en octobre à 51% en novembre. Un plus grand nombre d'industries dans le transport et l'entreposage et le commerce de gros et de détail ont enregistré des augmentations alors que dans les industries manufacturières, l'emploi diminuait.

## Tableau 6

Estimates of Employment, Average Hourly Earnings and Hours, for Employees Paid by the Hour, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les salariés rémunérés à l'heure, par industrie, Canada, provinces et territoires.

In November, average hourly earnings (including overtime), for employees paid by the hour in manufacturing industries, increased by 4.4% to \$17.01 since November 1995. Employees in the clothing industries registered the largest increases rising by 15% to \$10.86 while earnings for employees in the paper and allied products industries remained unchanged at \$21.64.

En novembre, la rémunération horaire moyenne (incluant le temps supplémentaire) pour les salariés rémunérés à l'heure dans les industries manufacturières, atteignait 17,01\$, soit une augmentation de 4,4% depuis novembre 1995. Dans les industries de l'habillement, la rémunération se fixait à 10,86\$ enregistrant ainsi l'augmentation la plus importante (15%) alors que pour les salariés dans les industries des pâtes et papier, la rémunération demeurait inchangé à 21,64\$.

**Establishment:** is a survey based on a census of establishment (questionnaires sent on a monthly basis).

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters ( medium and large businesses reporting more than once a month).

**Établissement:** est une enquête basée sur un recensement d'établissements (questionnaires envoyés mensuellement).

**Données administratives:** données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

#### SERVICES INDICATORS

## For and About Businesses Serving the Business of Canada...

At last, current data and expert analysis on this VITAL sector in one publication!

he services sector now dominates the industrial economies of the world. Telecommunications, banking, advertising, computers, real estate, engineering and insurance represent an eclectic range of services on which all other economic sectors rely.

Despite their critical economic role, however, it has been hard to find out what's happening in these industries. Extensive and time-consuming efforts have, at best, provided a collection of diverse bits and pieces of information ... an incomplete basis for informed understanding and effective action.

Now, instead of this fragmented picture, *Services Indicators* brings you a cohesive whole. An innovative quarterly from Statistics Canada, this publication **breaks new ground**, providing <u>timely</u> updates on performance and developments in:

- **Communications**
- Finance, Insurance and Real Estate
- Business Services

Services Indicators brings together analytical tables, charts, graphs and commentary in a stimulating and inviting format. From a wide range of key financial indicators including profits, equity, revenues, assets and liabilities, to trends and analysis of employment, salaries and output – PLUS a probing feature article in every issue, Services Indicators gives you the complete picture for the first time!

Finally, anyone with a vested interest in the services economy can go to *Services Indicators* for current information on these industries ... both <u>at-a-glance</u> and <u>in more detail than has ever been available before</u> – all in one unique publication.

If your business is serving business in Canada, or if you are involved in financing, supplying, assessing or actually using these services, *Services Indicators* is a turning point – an opportunity to forge into the future armed with the most current insights and knowledge.

Order YOUR subscription to Services Indicators today!

Services Indicators (catalogue no. 63-0160XPB) is \$112 (plus 7% GST and applicable PST) in Canada, US\$135 in the United States and US\$157 in other countries.

To order, write to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario K1A 0T6 or contact the nearest Statistics Canada Regional Reference Centre listed in this publication.

If more convenient, fax your order to 1-613-951-1584 or call 1-800-267-6677 toll-free in Canada and the United States [1-613-951-7277 elsewhere] and charge to your VISA or MasterCard.

#### INDICATEURS DES SERVICES

## Au sujet des entreprises au service des affaires du Canada et à leur intention...

Enfin regroupées en une publication, des données courantes et des analyses éclairées sur ce secteur ESSENTIEL!

e secteur des services domine à l'heure actuelle les économies industrielles du monde. Les télécommunications, les opérations bancaires, la publicité, l'informatique, l'immobilier, le génie et l'assurance représentent une gamme éclectique de services sur lesquels reposent tous les autres secteurs économiques.

En dépit de leur rôle critique sur le plan économique, il est toutefois difficile de savoir ce qui se passe dans ces branches d'activité. Des efforts considérables et fastidieux ont permis, au mieux, de rassembler une collection de renseignements fragmentaires divers... qui ne favorisent pas la compréhension avisée et la prise de mesures efficaces.

Remplacez maintenant ce tableau fragmentaire par l'image cohérente que vous offre *Indicateurs des services*. Cette publication trimestrielle innovatrice de Statistique Canada pénètre dans un domaine inexploré, fournissant des aperçus <u>opportuns</u> du rendement et des progrès dans les domaines suivants :

- **Communications**
- Finance, assurance et immobilier
- Services aux entreprises

Indicateurs des services rassemble des tableaux analytiques, des diagrammes, des graphiques et des observations en un mode de présentation stimulant et attrayant. En puisant à même une vaste gamme d'indicateurs financiers importants, allant notamment des profits, des capitaux propres, des recettes, de l'actif et du passif aux tendances et analyses de l'emploi, des salaires et de l'extrant – à laquelle s'ajoute un article de fond exploratif dans chaque numéro, Indicateurs des services brosse pour la première fois un tableau complet!

Enfin, quiconque s'intéresse au secteur des services peut consulter *Indicateurs des services* pour trouver des renseignements courants sur ces branches d'activité... tant sous une <u>forme sommaire qu'à un niveau de détail n'ayant jamais encore été offert</u> – et ce, dans une même publication.

Si vous êtes de ceux qui fournissent des services aux entreprises canadiennes, ou si vous financez, fournissez ou évaluez ces services ou y avez en fait recours, *Indicateurs des services* représente un tournant – une chance de s'aventurer dans l'avenir en étant armé des réflexions et connaissances les plus actuelles.

Commandez dès aujourd'hui VOTRE abonnement à Indicateurs des services!

Indicateurs des services (n° 63-0160XPB au catalogue) coûte 112 \$ (plus 7 % de TPS et la TVP en vigueur) au Canada, 135 \$ US aux États-Unis et 157 \$ US dans les autres pays.

Pour commander, écrivez à Statistique Canada, Division des Opérations et de l'intégration, Direction de la circulation, 120, avenue Parkdale, Ottawa (Ontario) KIA 0T6, ou communiquez avec le Centre régional de consultation de Statistique Canada le plus près (voir la liste qui figure dans la présente publication).

Si vous préférez, vous pouvez télécopier votre commande en composant le 1-613-951-1584 ou téléphoner sans frais du Canada et des États-Unis au 1-800-267-6677 [ou d'ailleurs, au 1-613-951-7277] et porter les frais à votre compte VISA ou MasterCard.

## MERCI DE VOTRE COMMANDE!

Statistique Canada Statistics Canada Canadä

# Don't let the changing world take <u>you</u> by surprise!

An aging population. Lone-parent families. A diverse labour force. Do you know how today's social changes will affect your future ... your organization ... and your family?

Keep pace with the dramatic shifts in Canada's evolving social fabric with Statistic Canada's best-selling quarterly, Canadian Social Trends. With vast and varied reports on major changes in key social issues and trends, this periodical incorporates findings from over 50 national surveys.

Written by some of Canada's leading-edge social analysts, *Canadian Social Trends* combines painstaking research with dynamic prose on topics like ethnic diversity, lowincome families, time-crunch stress, violent crime and much more — all in a colourful, easy-to-read, magazine format.

#### A lasting record of changing times!

Join the thousands of business and policy analysts, social-science professionals, and academics who trust *Canadian Social Trends* to demystify the causes and consequences of change in Canadian society. Don't miss a single issue — subscribe today.

Canadian Social Trends (catalogue number 11-0080XPE) is \$34 (plus GST and applicable PST) annually in Canada, US\$41 in the United States and US\$48 in other countries.

# Ne soyez pas dépassé par les événements!

Le vieillissement de la population. Les familles monoparentales. La diversification de la population active. Savez-vous comment les changements sociaux d'aujourd'hui vont se répercuter sur votre avenir, votre organisation, votre famille?

Suivez l'évolution spectaculaire de la société canadienne grâce à *Tendances sociales canadiennes*, une publication trimestrielle de Statistique Canada. Avec des articles vastes et variés sur les principaux changements caractérisant les questions et les tendances sociales principales, cette publication intègre les résultats de plus de 50 enquêtes nationales.

Certains des analystes sociaux les plus reconnus du Canada rédigent des articles dans *Tendances sociales canadiennes*. Ils présentent les résultats de recherches minutieuses dans un style attrayant pour des sujets tels que la diversité ethnique, les familles à faible revenu, le stress dû au manque de temps, le crime et bien d'autres encore dans une revue haute en couleur et de lecture aisée.

## Un dossier permanent d'une époque en évolution!

Des milliers d'analystes des entreprises et des politiques, de professionnels des sciences sociales et d'universitaires lisent *Tendances sociales canadiennes* pour identifier les causes et les conséquences de l'évolution de la société canadienne. Ne manquez pas un numéro, abonnez-vous dès aujourd'hui.

L'abonnement annuel à Tendances sociales canadiennes (n° 11-0080XPF au catalogue) coûte 34 \$ (plus la TPS et la TVP en vigueur) au Canada, 41 \$ US aux États-Unis et 48 \$ US dans les autres pays.

To order, write to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Ave., Ottawa, Ontario, K1A 0T6 or contact the nearest Statistics Canada Reference Centre listed in this publication.

If more convenient, fax your order to 1-613-951-1584 or call toll-free 1-800-267-6677 and use your VISA or MasterCard. Via Internet: order@statcan.ca

Pour passer votre commande, écrivez à Statistique Canada, Division des Opérations et de l'intégration, Direction de la circulation, 120, av. Parkdale, Ottawa (Ontario) K1A 0T6, ou adressez-vous au centre de services-conseils de Statistique Canada le plus proche de chez vous et dont la liste figure dans cette publication.

Vous pouvez aussi envoyer votre commande par télécopieur, au 1-613-951-1584, ou téléphoner sans frais au 1-800-267-6677 et donner votre numéro de carte VISA ou MasterCard. Via l'Internet: order@statcan.ca

## **Identify Emerging Trends**

**Define New Markets** 

## **Pinpoint Profit Opportunities**

### Déterminez les possibilités de profit

o safeguard your place in tomorrow's marketplace, you have to be able to

anticipate trends today. To do that, you're going to need some insight into the purchasing trends in the Canadian marketplace.

With a complete profile of Canadian consumers, plus an indepth analysis of Canadian industries, the *Market Research Handbook* gives you the most thorough coverage of purchasing trends. This valued bestseller can lead you to new markets by giving you details on:

how much money Canadians
are earning and what they're
spending on cars, rent, home
entertainment and household appliances;

the <u>level of sales</u> in retail chain and department stores;

what goods are being traded between Canada, U.S., and other countries;

census data such as: age/sex, schooling, households, unemployment, interprovincial and international migration

...and much, much more!

With over 600 pages, the *Handbook* includes more than 200 statistical tables that give you instant access to provincial and national market data. Featured are important economic indicators such as the *Gross Domestic Product*, *Labour Force Productivity*, *Private and Public Investment* and the *Consumer Price Index*.

Order your copy of the *Market Research Handbook* (Catalogue #63-2240XPB) today for only \$110 in Canada plus \$7.70 GST and applicable PST, US\$132 in the United States, and US\$154 in other countries.

CALL TOLL-FREE 1-800-267-6677 OR FAX (613)951-1584 and use your VISA or MasterCard. OR MAIL your order to: Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A OT6, or contact the nearest Statistics Canada Regional Office listed in this publication. Via Internet: order@statcan.ca

our maintenir votre place sur le marché de demain, vous devez être en mesure de prévoir les tendances aujourd'hui. Pour ce faire, vous devrez comprendre les habitudes d'achat sur le marché canadien. Renfermant un profil complet des consommateurs canadiens ainsi qu'une analyse approfondie des industries canadiennes, le Recueil statistique des études de marché brosse un tableau exhaustif des habitudes d'achat. Ce précieux bestseller peut vous faire découvrir de nouveaux marchés en vous fournissant les détails suivants :

les <u>revenus</u> des Canadiens et leurs <u>dépenses</u> pour la voiture, le loyer, les appareils de divertissement et les appareils ménagers;

le <u>niveau des ventes</u> dans les magasins de détail à succursales et les grands magasins;

les <u>biens échangés</u> entre le Canada, les É.-U. et d'autres pays;

les données du recensement telles que l'âge, le sexe, le niveau de scolarité, les ménages, le chômage, la migration interprovinciale et internationale

...et bien plus encore!

Le *Recueil*, contenant plus de 600 pages et au delà de 200 tableaux statistiques, vous permettra d'accéder instantanément aux données provinciales et nationales sur le marché. Il traite d'indicateurs économiques importants tels que le **produit intérieur brut**, la **productivité de la population active**, les **investissements privés et publics** et l'**Indice des prix à la consommation**.

Procurez-vous votre exemplaire du *Recueil statistique des études de marché* (n° 63-2240XPB au catalogue) dès aujourd'hui pour seulement 110 \$ au Canada plus 7,70 \$ de TPS et la TVP en vigueur, 132 \$ US aux États-Unis et 154 \$ US dans les autres pays. #### Note of appreciation

Canada owes the success of its statistical system to a long-standing co-operation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

#### Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles. Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

#### **Symbols**

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- confidential to meet secrecy requirements of the Statistics Act.

### Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- -- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

#### Note on CANSIM

The data published in Employment, Earnings and Hours (Catalogue No. 72-002-XPB) are also available in machine readable form through CANSIM (Canadian Socio-Economic Information Management System). Users interested in accessing data via CANSIM should contact one of Statistics Canada's regional centres at the numbers listed on the inside front cover of this publication, or contact the Marketing division, Statistics Canada, R.H. Coats Building, Ottawa, Ontario, k1A 0T6 (613) 951-8200

### **Note concernant CANSIM**

Les données qui sont publiées dans l'Emploi, gains et durée du travail (n° 72-002-XPB au catalogue) peuvent être obtenues sous forme lisible par machine de CANSIM (Système Canadien d'information socio-économique). Les utilisateurs voulant obtenir des chiffres par l'intermédiaire de CANSIM peuvent contacter un des centres de consultation de Statistique Canada dont les numéros de téléphone figurent à l'endos du couvert de cette publication ou en communiquant directement avec la division du marketing, Statistique Canada, Immeuble R.H. Coats, Ottawa, Ontario, K1A 0T6 (613)951-8200.

### Design your own table

Design your own table to order Employment, Payrolls and Hours data in the detail you need it. All data collected by the survey can be custom tabulated to meet your particular data needs. A consultant will help you custom design your tabulation. Our office is open from 8:00 A.M. to 4:30 P.M..

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANS1 Z39,48 - 1984.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48-1984.

### **Survey Overview**

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and defence services. Conceptually, the SEPH reference period is the last seven days of the month, but the questionnaire asks respondents to report for the last pay period in the month.

### Methodology

The statistics contained in this publication are based on:

- a census of establishments within enterprises with a complex structure and having approximately 300 or more employees.
- a census of administrative records having approximately 100 employees or more,
- a sample of administrative records having approximately 99 employees or less.
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

The total payroll employment estimates are derived by adding up the employment data obtained by integrating two different sources, the Establishment survey and the Administrative records. However, processes are independent for the sample selection, data collection and estimation. The Establishment Survey accounts for about 35% of the total payroll employment, while the remaining portion is from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficient needed to estimate data not reported on the administrative records. Combining different sources, BPS, Administrative Survey, and Establishment Survey results in the full range of SEPH variables.

#### TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification (SIC). A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501-XPB. In the tables of this

### Aperçu de l'enquête

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services de la défense. En théorie, la période de référence de l'EERH correspond aux sept derniers jours du mois, mais les répondants doivent remplir le questionnaire en tenant compte de la dernière période de paye du mois.

### Méthodologie

Les statistiques comprises dans la présente publication sont fondées sur:

- un recensement d'établissements à l'intérieur d'entreprises ayant une structure complexe et comprenant approximativement plus de 300 salariés.
- un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

Le nombre total de salariés inscrits sur la liste de paye est obtenu en additionnant l'emploi provenant de deux différents volets de l'enquête soit celui des enquêtes sur les établissements et celui des dossiers administratifs. Toutefois, les procédés sont distincts pour le choix de l'échantillon, la collecte des données et les estimations. L'enquête sur les établissements représente environ 35% du total des salariés inscrits sur les listes de paye, le reste provenant des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. différents volets soit l'ERE. les dossiers administratifs ainsi que l'enquête sur les établissements sont combinés en vue de produire toutes les variables propres à l'EERH.

#### TERMES ET DÉFINITIONS

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 (CTI) est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501-XPB. Dans les tableaux de cette publication,

publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except for defence services and other government services).
- e) Durable goods (39U) manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339) and non-metallic mineral products (351-359).
- f) Non-durable goods (37U) manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379) and other manufacturing industries (391-399).
- g) Commercial services (95U) consist of the following industries; business services (771-779), accommodation services (911-914), food and beverage services (921-922), amusement and recreational services (961-969), personal services (971-979), membership organization (982-986) and other service industries (991-999).
- Non-commercial services (94U) consist of the following industries; educational and related services (851-859) and health and social services (861-869).

une colonne est identifiée "CTI 1980". Ces codes corresponder à ce manuel. On compte 281 groupes d'activités visées pa l'EERH. À des fins analytiques, nous avons créé des groupe spéciaux qui ne figurent pas dans la Classification type de industries.

- a) Ensemble des industries (000-999) représente la somme d toutes les industries visées par l'enquête. Depuis janvie 1994, l'emploi pour l'ensemble des industries comprend le entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent de entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1996 l'emploi des entreprises non classifiées est compris dan l'ensemble des industries.
- c) Branche productrice de biens (041-449)(491-499) englobe le industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englob les industries suivantes; transports, communications entreposage, commerce, finances et assurances, service (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services de la défens et autres services gouvernementaux).
- e) Biens durables (39U) des industries manufacturières englob les industries suivantes; bois (251-259), meubles et article d'ameublement (261-269), première transformation de métaux (291-299), fabrication des produits métallique (301-309), machinerie (311-319), matériel de transpo (321-329), produits électriques et électroniques (331-339) produits minéraux non métalliques (351-359).
- f) Biens non durables (37U) des industries manufacturière englobe les industries suivantes; aliments (101-109), boisso (111-114), tabac (121-122), produits en caoutchouc (151-159 produits en matière plastique (161-169), cuir (171), premièr transformation du textile (181-183), produits textiles (191-199 habillement (243-249), papier et produits connexes (271-279 imprimerie, édition et industries connexes (281-284), produi raffinés du pétrole et du charbon (361-369), produi chimiques (371-379) et autres industries manufacturière (391-399).
- g) Services commerciaux (95U) englobe les industries suivante services aux entreprises (771-779), hébergement (911-914 restauration (921-922), services de divertissements et loisi (961-969), services personnels (971-979), association commerciales (982-986) et autres industries de services (99 999).
- h) Services non commerciaux (94U) englobe les industrié suivantes; services d'enseignement et services annexes (85-859) et services de soins de santé et services sociaux (86-869).

- Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- j) Other amusement and recreational services (960) consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).
- k) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

#### **Variables**

#### **Employee**

The employment is derived by adding up data derived from two sources; the establishment survey and from the administrative records. Since the data for the different employee categories are not reported on the administrative records the BPS survey is conducted to estimate ratios needed to calculated those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The definition excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

- Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bancaire (702).
- j) Services de divertissements et de loisirs (960) englobe les industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).
- k) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

#### **Variables**

#### Salarié

L'emploi est obtenu en additionnant les données provenants de sources différentes; l'enquête sur les établissements et des dossiers administratifs. Toutefois les estimations pour les différents types d'emplois ne sont pas rapporter sur les dossiers administratifs, l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servants à estimer ces variables.

L'enquête définie un employé comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le terme "salarié" désigne les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en corporation, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

### The employees are classified into the following categories:

 a) Employees paid by the hour: any employee whose basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff:* All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counsellor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

b) \*Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staff:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

c) \*Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *supply or substitute teachers*: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

#### Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, enemployment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to unemployment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period.

### Les salariés sont classés dans les catégories suivantes:

 a) Salariés rémunérés à l'heure: tout salarié dont le rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire e secondaire (851), post secondaire (852) et universitaire (853) représente dans cette catégorie le *personnel noi enseignant*: tous les salariés autres que le personne enseignant, c'est-à-dire le président, le vice-président, li bibliothécaire, le secrétaire général, l'économe, le comptable les orienteurs, les techniciens de laboratoire, les agents di personnel ainsi que les autres services (le concierge pourvoyeur, chauffeur d'autobus, etc.)

b) \*Employés: tout salarié dont la rémunération de base constitue une somme fixe versée pour au moins une semaine Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire e secondaire (851), post secondaire (852) et universitaire (853) représente dans cette catégorie le *personnel enseignant* tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur professeurs, doyens, chefs de département, maîtres enseignants, etc.), qu'il enseigne le jour ou le soir. Le suppléants ou remplaçants sont exclus.

c) \*Autres salariés: tout salarié dont la rémunération de base si présente sous forme de commissions, de salaire à la pièce d'indemnités de milage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire e secondaire (851), post secondaire (852) et universitaire (853) représente dans cette catégorie le personnel *suppléants* or *remplaçants*: enseignants appelés à se présenter au trava lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

#### Rémunération hebdomadaire brute:

La rémunération brute est défénie comme étant la partie de l rémunération hebdomadaire brute qui reflète le travail accomp durant la semaine de référence. Ca représente la valeur brute e dollars avant les déductions pour l'impôt sur le revenu, le contributions à l'assurance-chômage etc.., incluant le salair régulier, le surtemps et la partie bonis, commissions et tout autre types de paiements speciaux. Les concepts sur la rémunération ne comprend pas les montants en dollars qui représentent de allocations et des avantages imposables, certains type d'indemnités non salariales ainsi que les cotisations patronales l'assurance-chômage, au régime de pension du Canada ou a Régime des rentes du Québec, aux régimes d'assurance-maladi provinciaux, aux caisses d'indemnisation des accidents du travaet à d'autres régimes de prévoyance. Les paiements annue spéciaux sont exclus tandis que les paiements forfaitaires spécial sont rajustés de façon à coïncider avec la semaine de référence

The payroll is derived by adding up data derived from two sources, the Establishment survey and the Administrative records

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours for employees paid by the hour by the number of employees paid by the hour. Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence. Although the standard work week for salaried employees is not included in this document, this data remains available.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls for employees paid by the hour by the total number of weekly hours for employees paid by the hour. Average hourly earnings are calculated for the hourly-rated employees and for the \*salaried employees.

\*Data for other employees and salaried employees are available in the monthly publication (cat. 72-002-XPB) or directly from the Labour Division ((613) 951-4090).

You can obtain a more detailed description of the concepts and methods of the SEPH program in the January issue of this publication (Annex 1) or contact Labour Division at (613) 951-4090.

La rémunération brute est obtenue en additionnant les données provenant de sources différentes soit l'enquête sur les établissements et les dossiers administratifs

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées des salariés rémunérés à l'heure par le nombre de salariés rémunérés à l'heure. Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées. Même si le nombre d'heures dans une semaine normale de travail ne figure pas dans ce document, ces données demeurent disponibles.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute des salariés rémunérés à l'heure par le nombre d'heures travaillées de ces même salariés. La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des \*employés.

\*Les données pour les autres salariés et pour les employés sont disponibles soit dans la publication mensuelle (72-002-XPB) ou auprès de la division du travail au ((613) 951-4090).

Une description plus détaillée des concepts et des méthodes du programme de l'EERH figure dans l'édition de janvier de cette même publication (annexe 1) ou vous pouvez nous rejoindre à la division du travail au (613) 951-4090.

### Discover What Help-Wanted Ads Can Tell You About Canada's Economy / Découvrez ce que les offres d'emploi révèlent sur l'économie canadienne

Help-wanted ads in newspapers are a *rich source of information about economic activity*. When the economy is growing, employers place help-wanted ads to attract new workers. Similarly, during an economic downturn, there is a decrease in the demand for labour so they advertise less. Since help-wanted ads reflect future hirings, changes in the level of ads provide early signals of labour market conditions, and of general economic activity.

That's why Statistics Canada conducts the Help-Wanted Index survey (HWI). Each month, we count the help-wanted ads published in 22 metropolitan area newspapers across the country. Results are released within ten days after each month's data has been collected. This makes the index a timely source of valuable labour market information.

The Help-Wanted Index measures changes in the demand for labour by region and by metropolitan areas like Vancouver, Winnipeg, Toronto, Montreal and Halifax, among others. In fact, it is the only indicator of labour demand compiled by Statistics Canada on a regular basis!

Les offres d'emploi publiées dans les journaux sont *une source* abondante d'information sur l'économie. En période de croissance économique, les employeurs font paraître les offres d'emploi afin d'attirer de nouveaux travailleurs. De la même façon, durant une période de ralentissement économique, la baisse de la demande de main-d'oeuvre entraîne une réduction du nombre d'annonces. Étant donné que les annonces d'offres d'emploi reflètent les intentions d'embauche future, leurs fluctuations peuvent fournir une indication précoce des conditions du marché du travail et de l'économie en général.

Voilà pourquoi Statistique Canada mène l'enquête de l'indice de l'offre d'emploi (I.O.E.). Tous les mois, nous dénombrons les offres d'emploi parues dans 22 journaux des régions métropolitaines du pays. Les résultats sont publiés moins de dix jours après la collecte des données. L'indice est donc une source précieuse et actuelle de renseignements sur le marché du travail.

L'indice permet de mesurer la demande de main-d'oeuvre selon les grandes régions du Canada et selon les régions métropolitaines telles que Vancouver, Winnipeg, Toronto, Montréal et Halifax. En fait, c'est le seul indicateur de la demande de maind'oeuvre publié régulièrement par Statistique Canada.

Help Wanted Index data add one more "piece of the picture" to your research project.

For more information about the index, call Sylvie Picard at or Michael Scrim at (613) 951-4090. Fax us at (613) 951-4087. Our Internet address is: labour@statcan.ca. Employment, Earnings and Hours December 1996 (preliminary) Seasonally adjusted

In December, the number of workers on business payrolls grew by 97,000 to reach 11,136,000. Increases were widespread as all industries, except public administration, registered advances. Quebec and Ontario registered the largest gains, although some growth was observed in virtually all provinces and territories.

Emploi, gains et durée du travail Décembre 1996 (données provisoires) Données désaisonnalisées

En décembre, le nombre de personnes inscrites sur les listes de paye des employeurs a grimpé de 97 000 pour se fixer à 11 136 000. Cette hausse était largement répartie dans tous les secteurs d'activité, à l'exception de l'administration publique. Le Québec et l'Ontario ont réalisé les gains les plus importants, quoique des hausses aient été observées dans pratiquement toutes les provinces et territoires.

Employees on business payrolls increased substantially in last quarter of 1996./

Le nombre de salariés inscrits sur les listes de paye des employeurs a fortement augmenté au quatrième trimestre de 1996.

Following a peak in January 1996, the number of payroll employees generally declined during the first nine months of the year. Since September, the number of employees on company payrolls rebounded between October and December, and now exceeds employment levels at the start of the year by 135,000. Employers have added nearly three quarters of a million workers to company payrolls since the employment trough in October 1992.

For the year, businesses in Alberta added 50,000 employees, mainly in construction, business services and the manufacturing sector, to lead all other provinces in payroll employment growth. Gains were also registered in 1996 by manufacturers in Ontario, Quebec and British Columbia, as well as in business services in Ontario. This growth coincided favourably with the trends observed in other economic indicators such as building permits and manufacturing shipments.

Après avoir récemment atteint un sommet en janvier 1996, le niveau de l'emploi a fluctué à la baisse au cours des neuf premiers mois de l'année. Depuis septembre, le nombre de salariés sur les listes de paye des entreprises a bondi d'octobre à décembre pour dépasser de 135 000 le niveau du premier mois de l'année. Depuis le seuil de l'emploi atteint en octobre 1992, les employeurs ont ajouté près de trois quarts de million de salariés à leurs listes de paye.

Au cours de l'année, l'Alberta a ajouté 50 000 salariés, principalement dans la construction, les services aux entreprises et le secteur manufacturier, pour mener la croissance de l'emploi parmi les provinces. Des augmentations ont aussi été constatées en 1996 chez les manufacturiers de l'Ontario, du Québec et de la Colombie-Britannique, de même que dans les services aux entreprises de l'Ontario. Cette croissance coïncide avec l'évolution récente de plusieurs indicateurs économiques, tels que les permis de bâtir et les livraisons des manufacturiers.

Employees' average weekly earnings rose slightly in December, offsetting a similar decline the previous month. Compared with December 1995, earnings in December 1996 were 2.7% higher. The modest changes observed in November and December were preceded by strong earnings growth during October. The gain in December earnings was mainly due to growth in the manufacturing sector. Earnings continued to trend downward for employees in construction, health and social services and public administration.

The average number of hours worked by employees paid by the hour (which represent 50.8% of total employment) maintained the peak of 31.1 hours reached in November. Increased average hours of work for manufacturing and trade employees offset declines in the remaining industries.

La rémunération hebdomadaire moyenne a légèremer augmenté en décembre, annulant une baisse similaire enregistrée l mois précédent. Par rapport à décembre 1995, la rémunération et de 2,7 % plus élevée. Ces faibles variations observées en novembre et en décembre avaient été précédées d'une forte croissance de l rémunération au mois d'octobre. La hausse de décembre a ét entraînée principalement par une augmentation de la rémunération dans le secteur manufacturier. Les fluctuations à la baisse se soi toutefois poursuivies dans la construction, la santé et les service sociaux ainsi que dans l'administration publique.

Le nombre d'heures travaillées en moyenne par les salarié rémunérés à l'heure (qui représentent 50,8 % de tous les salariés s'est maintenu au sommet de 31,1 heures atteint en novembre. Ur hausse du nombre d'heures travaillées en moyenne chez les salarié des manufacturiers et du commerce a compensé des baisses dar tous les autres secteurs.

### Manufacturing employment rebounded in November and December

While the level of employment among manufacturers remained virtually unchanged from November 1995 to October 1996, it jumped by 62,000 workers during November and December. The gains were led by metal products fabrication and plastic products industries. The expansion in employment occurred as unfilled orders rose sharply in December. Manufacturers in Quebec and Ontario accounted for most of the gains.

### L'emploi a bondi en novembre et en décembre chez la manufacturiers

Alors que le niveau de l'emploi chez les manufacturiers est res presque stagnant entre novembre 1995 et octobre 1996, il a bondi 9 62 000 en novembre et en décembre. La hausse a été constate principalement dans les secteurs de la fabrication de produs métalliques, et des industries des produits en matière plastiquet Cette augmentation de l'emploi a eu lieu alors que les commandes par carnet des fabricants ont fortement progressées en décembre. Panombre de salariés chez les manufacturiers a surtout augmenté de Québec et en Ontario.

For the third consecutive month, average weekly earnings for manufacturing employees rose sharply in December. This earnings growth was the result of an increase in the number of hours worked for hourly paid manufacturing employees. The average number of hours worked climbed during the last quarter of 1996 to stand at 39.1 hours. Manufacturing employees earned on average \$738.40 in December, a gain of 4.5% from December 1995.

### Downward trend in transportation and storage comes to a halt

The declining trend that characterized the transportation and storage industry for the first nine months of 1996 ended as the number of employees increased for a third consecutive month. The number of employees in this industry expanded by 3.0% in December, bringing the gains since September to 27,000. Employment in the transportation and storage industries has returned to December 1995 levels. The gains were due in part to the privatization of air navigation services from Transport Canada and employment growth in the trucking industry.

#### Employment growth resumes in business services

Employment in business services industries was marked by monthly fluctuations without any clear trend for most of 1996. During the last quarter of 1996, however, business services employment has registered strong gains, resuming the growth that characterized the industry between 1993 and 1995. As a result, business service establishments ended the year with 44,000 more workers than at the start of 1996.

The December gains were in employment agencies, personnel suppliers and offices of architects, engineers and other scientific and technical services, and were concentrated in Quebec. Ontario and Alberta also registered increases.

Average weekly earnings for business service employees increased slightly in December. Employees' earnings in business services have fluctuated since June without showing any discernable trend.

### Employment rebound continues in construction industry

Following a resurgence in demand for new and existing housing and growth in the value of building permits, the number of employees working in construction increased substantially during the last quarter of 1996. These gains more than offset the downward trend observed since the spring. Gains in december (+13,000 employees) were concentrated among trade contractors and construction companies in Alberta and Ontario.

The decrease of \$3.69 in average weekly earnings in December was due in part to a drop in both the average number of hours worked and hourly earnings for employees paid by the hour.■

Pour le troisième mois consécutif, la rémunération hebdomadaire moyenne chez les salariés des manufactures s'est fortement accrue en décembre. Cette hausse récente de la rémunération s'est faite à la faveur d'une hausse du nombre moyen d'heures hebdomadaires travaillées par les salariés rémunérés à l'heure. Le nombre d'heures travaillées en moyenne s'est accru au cours des trois derniers mois pour se fixer à 39,1 heures. La rémunération moyenne chez les salariés des manufactures se situe à 738,40 \$ en décembre 1996, soit 4,5 % de plus qu'en décembre 1995.

### Fin des fluctuations à la baisse dans les transports et l'entreposage

La tendance à la baisse qui a caractérisé l'industrie des transports et de l'entreposage au cours des neuf premiers mois de l'année, s'est arrêtée, alors que le niveau de l'emploi a grimpé pour le troisième mois consécutif. Le nombre de salariés dans ce secteur s'est accru de 3,0 % en décembre portant à 27 000 les gains depuis septembre. L'emploi dans l'industrie des transports et de l'entreposage est revenu au même niveau qu'en décembre 1995. Cette hausse est en parti attribuable à la privatisation des activités de la navigation aérienne de Transports Canada et à la croissance de l'emploi dans l'industrie du camionnage.

### La croissance de l'emploi reprend dans les services aux entreprises

Pour la majeure partie de l'année 1996, l'emploi dans l'industrie des services aux entreprises a été marqué par des fluctuations mensuelles sans direction précise. Toutefois, au cours des trois derniers mois, de fortes hausses de l'emploi ont été enregistrées dans le secteur des services aux entreprises, reprenant la tendance à la hausse qui caractérisait ce secteur entre 1993 et 1995. Cela a permis de terminer l'année 1996 avec 44 000 salariés de plus qu'au début de l'année.

L'augmentation de décembre a été réalisée dans les bureaux de placement et services de location de personnel, ainsi que dans les bureaux d'architectes, d'ingénieurs et autres services scientifiques et techniques. Elle était concentrée au Québec alors que des hausses de l'emploi ont aussi été constatées en Ontario et en Alberta.

La rémunération hebdomadaire moyenne dans les services aux entreprises a légèrement augmenté en décembre. La rémunération fluctue depuis juin sans montrer de tendance nette à la hausse ou à la baisse.

### La remonté de l'emploi dans le secteur de la construction se poursuit

Après une remontée de la demande de maisons neuves et existantes et une hausse de la valeur des permis de bâtir, le nombre de salariés oeuvrant dans la construction s'est fortement redressé au cours du dernier trimestre de 1996. Ces augmentations ont plus qu'annulé les fluctuations à la baisse enregistrées depuis le printemps. La hausse de 13 000 emplois de décembre a surtout été concentrée chez les entrepreneurs spécialisés et chez les constructeurs de l'Alberta et de l'Ontario.

La baisse de 3,69 \$ de la rémunération hebdomadaire moyenne en décembre est en partie attribuable à une baisse du nombre d'heures travaillées en moyenne et du gain horaire chez les salariés rémunérés à l'heure.

### Tableau 1

Seasonally Adjusted Estimates of Employment, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996).

Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

In December, employment was up from last month for every major industry, except public administration. The most significant gains were in the construction and manufacturing sectors.

En décembre, le nombre de salariés a augmenté par rapport au mois précédent, dans toutes les industries majeures à l'exception de l'administration publique. Les gains les plus importants ont été enregistrés dans l'industrie de la construction et dans les manufactures.

### Table 2

### Tableau 2

Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996). Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

Average weekly earnings at the industrial aggregate level, closed the year up 3.6% from January 1996. Over the same period, the average weekly earnings growth in the goods producing industries, doubled that of service producing industries.

En fin d'année, la rémunération hebdomadaire moyenne pour l'ensemble des industries a augmenté de 3,6% par rapport à janvier 1996. Durant la même période, la croissance de la rémunération hebdomadaire moyenne dans la branche productrice de biens était deux fois plus élevée que dans la branche productrice de services.

ployment, Earnings and Hours, 1996 tistics Canada - Cat. No. 72-002-XPB

# Tableau 3

Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1992-1996). Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1992-1996).

On a year-over-year basis, British-Columbia's fixedweighted index of average hourly earnings rose for the eight time this year. In December, goods producing industries recorded essentially all of the growth in that same province. D'une année à l'autre, l'indice à pondération fixe de la rémunération horaire moyenne pour la Colombie-Britannique, a augmenté huit fois cette année. Dans cette même province, la croissance en décembre était concentrée essentiellement dans la branche productrice de biens.

## Tableau 7

Estimates of Employment, Average Hourly Earnings and Hours, for Salaried Employees, by Industry, Canada, Provinces and Territories. Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les employés (à salaire fixe), par industrie, Canada, provinces et territoires.

In December, average hourly earnings (including overtime) for salaried employees increased by 2.1% since December 1995. Salaried employees in Prince Edward Island registered the largest annual earnings increase rising by 9.1% while Quebec was the only province to record a decline (-0.3%).

En décembre, la rémunération horaire moyenne (incluant le temps supplémentaire) des employés a augmenté de 2,1% depuis décembre 1995. À l'Île-du Prince-Édouard, les employés ont enregistré la plus forte croissance annuelle de la rémunération soit 9,1%, alors que le Québec était la seule province à enregistrer une baisse (-0,3%).

**Establishment:** is a survey based on a census of establishment (questionnaires sent on a monthly basis).

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters ( medium and large businesses reporting more than once a month).

Établissement: est une enquête basée sur un recensement d'établissements (questionnaires envoyés mensuellement).

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

The 1994 Statistics Canada Catalogue is your guide to the most complete collection of facts and figures on Canada's changing business, social and economic environment. No matter what you need to know, the Catalogue will point you in the right direction.

From the most popular topics of the day – like employment, income, trade, and education – to specific research studies – like mineral products shipped from Canadian ports and criminal victimization in urban areas – you'll find it all here.

#### ... the 1994 Statistics Canada Catalogue will help you get your bearings...

The Catalogue puts all this information at your fingertips. With the expanded index, you can search by subject, author or title – even periodical articles are indexed. There's also a separate index for all our electronic products.

The **Catalogue** has everything you need to access all Statistics Canada's products:

- descriptions of over 25 new titles, plus succinct abstracts of the over 650 titles and 7 map series already produced;
- a complete guide to finding and using statistics;
- electronic products in a variety of media, and

advice on getting expert assistance on electronic products and on-line searches:

tabs to each section -- so you can immediately flip to the information you need.

#### ... time and time again

To make sure that the **Catalogue** stands up to frequent use, we used a specially coated cover to prevent broken spines, tattered edges and dog-eared corners.

Order today – you'll be lost without it.

#### 1994 Statistics Canada Catalogue

Only \$15 (plus GST and applicable PST) in Canada (US\$18 in the U.S. and US\$21 in other countries). Quote Cat. no. 11-2040XPE.

Or contact the nearest Statistics Canada Reference Centre listed in this publication. Choisissez un sujet... n'importe lequel

Le **Catalogue de Statistique Canada 1994** est votre guide pour la collection la plus complète de faits et de chiffres dans les domaines, en constante évolution, du commerce, de la société et de l'économie du Canada. Peu importe ce que vous voulez savoir, le **Catalogue** vous mettra sur la bonne piste.

Des sujets actuels les plus populaires – comme l'emploi, le revenu, le commerce et l'éducation – à des études de recherche spécialisées – comme les produits minéraux expédiés des ports canadiens et la victimisation dans les régions urbaines –vous trouverez tout dans ce document.

#### Le Catalogue de Statistique Canada 1994 vous aidera à vous orienter...

Le **Catalogue** vous met tous ces renseignements sous la main.
L'index augmenté vous permet de chercher par sujet, auteur ou titre – les articles de périodiques sont même indexés. On a aussi ajouté un index séparé pour tous nos produits électroniques.

Le **Catalogue** a tout ce qu'il vous faut pour vous procurer les produits de Statistique Canada:

- descriptions de plus de 25 nouveαux titres et courts résumés des 650 titres et plus et des 7 séries de cαrtes déjà disponibles;
- guide complet pour obtenir et utiliser les données statistiques;
- produits électroniques sur supports divers et conseils sur l'obtention d'aide d'experts pour

les produits électroniques et les recherches en direct;

système d'onglets pour chaque section - pour que vous puissiez immédiatement repérer les renseignements qui vous intéressent.

#### ...maintes et maintes fois

Pour garantir que le **Catalogue** puisse résister à une utilisation fréquente, nous avons utilisé une couverture avec un revêtement spécial conçue pour éviter les dos cassés, les bords abîmés et les coins de page pliés.

Commandez aujourd'hui – vous ne pourrez plus vous en passer.

#### Catalogue de Statistique Canada 1994

Seulement 15 \$ (plus la TPS et la TVP en vigueur) au Canada (18 \$ US aux États-Unis et 21 \$ US dans les autres pays). Indiquez le n° au catalogue : 11-2040XPF.

# Hire our Notre équipe de team of chercheurs est à researchers for votre service pour \$56 a year 56 \$ par année

ubscribing to Perspectives on Labour and Income is like having a complete research department at vour disposal. Solid facts. Unbiased analysis. Reliable statistics.

But Perspectives is more than just facts and figures. It offers authoritative insights into complex

labour and income issues, analyzing the statistics to bring you simple, clear summaries of labour market and income trends.

Our team of experts brings you the latest labour and income data. Each quarterly issue provides:

- m topical articles on current labour and income trends
- more than 50 key labour and income indicators
- a review of ongoing research
- information on new surveys

As a special bonus, twice a year you will also receive The Labour Market Review, giving you timely analysis on labour market performance over the previous six months or year.

#### And all for only \$56!

Thousands of Canadian professionals turn to Perspectives to discover emerging trends in labour and income and to stay up to date on the latest research findings. As a subscriber, you will get the inside story. We know you'll find Perspectives indispensable. GUARANTEED. If you aren't convinced after reading the first issue, we'll give you a FULL REFUND on all outstanding issues. Order your subscription to Perspectives today (Cat. No. 75-0010XPE).

#### ORDER NOW!

For only \$56 (plus \$3.92 GST and applicable PST) you will receive the latest labour and income research (4 issues per year). Subscription rates are US\$68 for U.S. customers and US\$80 for customers in other countries. Fax your VISA or MasterCard order to: (613) 951-1584. Call toll free: 1-800-267-6677. Or mail to: Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Ave., Ottawa, Ontario K1A 0T6. Or contact your nearest Statistics Canada Reference Centre listed in this publication. Via Internet: order@statcan.ca

'abonner à L'emploi et le revenu en perspective, c'est disposer d'une division entière de chercheurs à votre service. Des faits solides. Des analyses objectives. Des statistiques fiables.

La publication n'a pas que des faits et des chiffres. Elle offre également des analyses de fond sur des questions complexes touchant l'emploi et le revenu, de façon à fournir des indications claires et précises sur les

tendances actuelles du marché du travail et des revenus.

Notre équipe de spécialistes met à votre disposition des données récentes sur l'emploi et le revenu. Dans chacun des numéros trimestriels, vous trouverez :

- m des articles de fond sur l'emploi et le revenu
- plus de 50 indicateurs clés de l'emploi et du revenu
- mun aperçu de la recherche en cours
- de l'information sur les nouvelles enquêtes

En prime, vous recevrez le Bilan du marché du travail deux fois l'an. Vous disposerez ainsi d'une analyse à jour de la situation du marché du travail pour les six derniers mois ou la dernière année.

#### Tout cela pour 56 \$ seulement!

Des milliers de professionnels au Canada consultent Perspective pour connaître les tendances de l'emploi et du revenu, ainsi que les plus récents résultats de recherche. Votre abonnement vous permettra de connaître tous les faits.

Nous savons que L'emploi et le revenu en perspective deviendra pour vous un outil indispensable. C'EST GARANTI. Si vous n'êtes pas satisfait après avoir lu le premier numéro, nous vous REMBOURSERONS le montant payé pour les numéros à venir. Abonnez-vous à Perspective (nº 75-0010XPF au cat.) dès aujourd'hui.

#### **ABONNEZ-VOUS DÈS MAINTENANT!**

Pour 56 \$ seulement (plus 3,92 \$ de TPS et la TVP en vigueur en sus), vous recevrez les plus récentes recherches sur l'emploi et le revenu (quatre numéros par année). L'abonnement est de 68 \$ US aux États-Unis et de 80 \$ US dans les autres pays. Faites parvenir votre commande par télécopieur (VISA ou MasterCard) au (613) 951-1584, par téléphone (sans frais) au 1-800-267-6677, par courrier à Statistique Canada, Division des Opérations et de l'intégration, Direction de la circulation, 120, avenue Parkdale, Ottawa (Ontario) K1A 0T6. Ou communiquez avec le Centre de consultation de Statistique Canada le plus près. (Voir la liste dans la présente publication). Via l'Internet: order@statcan.ca
